NOTE: An S after a page number denotes a supplement paper

A

Absorption
  calcium binding proteins, dietary fructooligosaccharides, rats, 934
  (−)-epicatechin metabolism accumulation, rats, 1172
  phytic acid effects, mineral utilization, rats, 1192
  vitamins A and E, lactose-induced diarrhea, rats, 2467
  zinc propionate bioavailability, dogs, 2596S
Acculturation
  adolescent obesity study, United States, 701
Acetate
  metabolism
    kinetic study, dogs, 2651S
    whole-body peripheral, intestinal turnover, dogs, 111
  plasma, lactulose ingestion effects, dogs, 2663S
Acetyl CoA synthesis
  carbohydrate intake, glucose metabolism partitioning, mice, 733
Acid
  dietary protein, bone loss, humans, 1051
Acquired Immunodeficiency Syndrome (AIDS)
  patients, amino acid requirements, 1342
Acrodermatitis enteropathica
  protein expression, gel electrophoresis, humans, 1311
Acute phase response
  protein-deficient diet, rats, 166
  retinol-binding protein, vitamin A supplementation, humans, rats, 1681
Acyl-CoA
  cholesterol acyltransferase (ACAT), fatty acids effect, 444S
  synthetase, starvation, adipocyte lipoprotein lipase activity, rats, 940
Adipocytes
  dietary (n-3) fatty acids effects, rats, 512
  polyunsaturated fatty acids, gene expression regulation, 923
  starch structure, effects of, normal vs. diabetic, rats, 35
Adipose tissue
  carotenoids, serum concentrations, humans, 1920
  leptin, dietary obesity, rats, 1606
  lipogenic enzymes, starch diet effects, rats, 1878
  lipoprotein lipase activity, rats, 940
Adiposity
  childhood diet, psychological influences, 407S
Adolescents
  obesity, United States, 701
  weight, adult disease, 411S
Adrenaline
  capsaicin analog, stearoyl vanillylamide, increased endurance, mice, 1978
  response to ACTH, male Fischer 344 rats, 1415
β-Adrenergic agonist
  ractopamine, insulin response, cattle, 505
Adults
  disease, childhood weight, 411S
  health, early nutritional programming, 401S
Age
  calcium metabolism development, healthy girls, 1474
  thyroid hormone levels, colony average, cats, 2636S
Aging
  changing effects, hematology values, budgerigars, 2639S
  changing perspectives
    body weight, body composition, 2627S
    digestive functions, 2632S
    energy requirements, 2623S
  dietary protein quantity and brain protein synthesis, rats, 1533
  immune response and polysaccharide effects, mice, 193
  α-linolenic acid deficiency, behavior during aging, rats, 1537
  long-term fructose consumption, glycation reaction, aging, rats, 1442
Agricultural experiment stations
  diet history, changing American habits, 1253
Alanine
  glutamine, splanchnic nitrogen sparing, rats, 1487
Albumin
  hepatic protein metabolism, measured by fractional secretory rates, 198
Alcohol
  dehydrogenase, embryogenesis, retinoic acid synthesis, mice, 459S
  lung cancer risk, humans, 694
Aldehyde dehydrogenases
  retinoic acid, eye development role, 463S
Alkaline phosphatase
  vitamin A effects, small intestine, rats, 1869
All-*trans* β-carotene
  absorption, ferrets, 2009
Altitude
  high
    biological and nutritional effects, rescue dogs, 2694S
    energy intake, macronutrient selection, humans, 50
Alzheimer's disease
  lipoproteins role, in fat transport, 439S
American Heart Association (AHA) Step I Diet
  modified, cholesterol-lowering effects, 1429
Amino acids
  alanine, glutamine, splanchnic nitrogen sparing, rats, 1487
  branched-chain metabolism, lactation, rats, 1165
  composition, preruminant calves, 1774
  deficiency, imbalanced diet, brain lesions, rats, 1213
  dispensable, crude protein levels, cats, 2577S
  endogenous
    ileal recovery, 2528
    soybean trypsin inhibitors, pigs, 598
    trypsin inhibitors, 2526
  essential, crude protein levels, cats, 2577S
  fasted cancer patients, fibrinogen, 1355
  fetal fluids, pigs, 894
  hepatic metabolism, pigs, 1517
  histidine availability, glucagon mRNA levels, mice, 973
  intestinal, metabolism, pigs, 606
  LSRO report, nutrient requirements, term infant formulas, 2118S
  metabolism
    human dietary requirement, 2563S
    intestine mucosa, 1249
  nitrogen and, digestibility, cat food, 2801S
  ^{15}N-leucine infusion technique, pigs, 1961
  protein metabolism, in diabetes mellitus, 328S
  protein restrictions
    diabetes, 333S
    nutritional effects, 337S
  protein synthesis roles, neonates, 347S
  requirements
    AIDS patients, 1342
    human, 1570
    metabolic demands, 2563S
  stable isotopes, oxidation determination, humans, 1913
  sulfur, taurine status, cysteinsulfinic acid, cats, 751
  tropical crop seeds, quality, rats, 2014
  utilization, preruminant calves, 1774
  vitamin B-6 and, rats, 1829

Aminotransferase
branched-chain metabolism, lactation, rats, 1165
mitochondria branched-chain, rats, 1368
Ammonia
production, urease activity, GI tract, rats, 1186
short-chain fatty acids, rats, 843
Amylopectin
amylose, starch structure effects of, normal vs. diabetic, rats, 35
lipid complex, debranched, resistant starch digestibility, dogs, 2032
Analytical composition
commercial dog food, glycemic and insulinemic effects, 2654S
Anemia
gastrectomy, dietary fructooligosaccharides, rats, 485
iron deficiency, thyroid hormone kinetics, rats, 1401
Animal
by-products, raw and rendered, diet nutrient intake, digestion, dogs, 2812S
models, cancer prevention, selenium biochemistry, basic research progress, 1845
Anthocyanins
dietary polyphenolic compounds, endothelium-dependent vasorelaxation, rats, 2324
Anthropometry
Barbados feeding practices, infant growth, 1328
body composition during lactation, women, 381S
natural disasters, public health, malnourished North Korean children, 1315
Antibodies
polymeric immunoglobulin receptor (pIgR) expression, vitamin A, humans, 1063
Anticarcinogen
milk conjugated linoleic acid concentrations, cows, 881
Antigen
dietary, probiotics, mucosal degradation effect, rats, 2313
Antinutritional factors
tropical crop seeds, quality, rats, 2014
Antioxidant(s)
capacity, fruit, vegetables, red wine, human consumption, 2383
effects
dilated cardiomyopathy, dogs, 2768S
glutathione peroxidase, mice, 1070
enzyme, glutathione and glutathione ethyl ester supplementation, exercise performance, mice, 2420
fatty acid effects, spontaneously hypertensive rats, 1620
grape juice, platelet aggregation inhibitor, monkeys, dogs, 2307
iron supplementation, aberrant crypt foci development, rats, 764
lutein effects, mammary tumor development, mice, 1650
plasma, wine polyphenols, humans, 1003
sesamolin inhibits lipid peroxidation, rats, 1018
Antisense oligonucleotides
brain GLUT2, food intake and, rats, 287
Apolipoproteins
(apo)E-deficient mice, antiatherogenic effects, dietary soy protein, 1884
serum lipids, gerbils, 839
Appetite
leptin receptor gene, phenotypic consequences, obesity, rats, 2299
megestrol, insulin-like growth factor-1 effects, zinc deficiency, rats, 136
Arachidonic acid
dietary, docosahexaenoic and, pigs, 1376
fatty acid composition, brain development, rats, 2473
intestinal absorption, rats prefed high-fat diets, 185
Arginase
dietary standards, nutrition and toxicology, 368S
Arginine
pharmacological nutrition, burn injury, 797
Ascorbic acid
deficiency
acute phase proteins, rats, 832
vitamin C essential for *Astronotus ocellatus*, 1745
supplement use, demographic, lifestyle, diet, health, humans, 2355
Astronotus ocellatus
ornamental fish, vitamin C essential, 1745
Asymmetry
vitamin A, embryonic development, 455S
Atherosclerosis
antiatherogenic effects, soy protein, (apo)E-deficient mice, 1884
dietary isoflavones, mice, 954
lipoproteins role, in fat transport, 439S
Atlantic salmon (*Salmo salar*)
Cayuga syndrome, maternal blood, egg and larval thiamin levels, 2456
Atrophy
glutamine, heat shock reduction, intestinal epithelial cells, rats, 1269
intravenous glutamine vs. enteral feedings, pigs, 2723S
small intestine, oral milk feedings, pigs, 2727S
Autocorrelation
food intake, subsequent intake effects, humans, 61
Autoimmune disease
inhibition of arthritis by 1,25-dihydroxycholecalciferol, mice, 68
Average American Diet (AAD)
modified American Heart Association (AHA) Step I diet, cholesterol-lowering effects, 1429
Avian
hematology values, aging effects, budgerigars, 2639S
Azoxymethane
fish oil increases colonocyte differentiation and apoptosis, rats, 491

B

Bacillus CIP 5832
probiotics use, diet, dogs, 2730S
Beans
digestion, humans, 977
Bifidobacteria
$^{13}CH_3{}^{13}COOH$ from 3-^{13}C-glucose, humans, NMR detection, 91
colonic, bifidogenic nature of chicory inulin (critical review), 11
fecal, breath hydrogen and, humans, 996
ingested, breath hydrogen and, humans, 996
Bifidogenicity
chicory inulin, bifidogenic nature of (critical review), 11
Bile acids
cholesterol metabolism, straw mushroom diets, hamsters, 1512
metabolism
lipoprotein inulin effects, hamsters, 1937
psyllium altered, rats, 1199
Bioavailability
β-carotene, humans, 913
zinc
comparison, physiologic measurements, dogs, 2809S
organic vs. inorganic, dogs, 2593S
zinc propionate, dogs, 2596S
Bioconversion
β-carotene to vitamin A, ferrets, 271
Biography
Constance V. Kies (1934–1993), 1597
Biohydrogenation
conjugated linoleic acid effects, de novo fatty acid inhibitor, cows, 2411
Biological response modifier
polysaccharides, immune response and, mice, 193
Biotin
dietary requirement, *Penaeus monodon* shrimp growth, 2494
LSRO report, nutrient requirements, term infant formulas, 2196S
Blood
(–)-epicatechin metabolism accumulation, rats, 1172
parameters, lipid metabolism, diet, cats, 2648S
vitamin B-6 and amino acids, rats, 1829
Blood-brain barrier
Cu-ATPase, Menkes disease, 1276

Body composition
assessment, dual-energy X-ray absorptiometry, rats, 1550
changes during lactation, women, 381S
changing perspectives, aging, body weight and, 2627S
dietary management advances, obesity, dogs and cats, 2771S
empty, bovine growth hormone genes, transgenic mice, 520
estimation, pigs, 1543
mild stunting, high fat diets effects, 415S
predicted by dual energy X-ray absorptiometry, rats, 246
protein and energy requirements, red drum, 123
protein restrictions, nutritional effects, 337S
puppies, effects of age, breed, 2680S
in vivo neutron activation analysis, humans, 1008
Body mass index
overweight humans, dietary fat lipid response, 1144
Body protein
amino acid deposition, preruminant calves, 1774
Body weight
brain lesions, imbalanced amino acid diet, rats, 1213
changing perspectives, aging, body composition and, 2627S
Bone
biomechanics, xylitol protective effects, ovariectomized rats, 1811
density, energy and calcium dietary restriction, female rats, 640
loss, dietary protein, 1048, 1051, 1054
metabolism, dietary proteins, 2529
mineral content, calcium metabolism, salt intake, rats, 633
mineral density, fructooligosaccharides and gastrectomy, 106
strength increased, maltitol, rats, 2028
sucrose, decreased mechanical strength, rats, 1807
trabecular volume, xylitol effects, ovariectomized rats, 1811
Book review
Nutrition Policy in Public Health, 664
Boron
growth stimulant, embryonic rainbow trout, 2488
Bottle-feeding
National Center for Health Statistics (NCHS), infant growth, 1134
Bovine
dietary oils, milk conjugated linoleic acid concentrations, 881
insulin-dependent glucose utilization, lactose supplement, 1023
Bovine growth hormone (bGH)
empty body components, mice, 520
Brain
development
fatty acid composition, rats, 2473
malnutrition, noradrenaline synthesis, rats, 1224
neonatal dietary cholesterol, pigs, 2498
GLUT2, antisense oligonucleotide, food intake and, rats, 287
protein synthesis, dietary protein effects and, aged rats brain, 1533
structured triacylglycerols, neural function, rats, 1011
α-tocopherol, oxidation by peroxynitrite, rats, 152
vitamin B-6 and amino acids, rats, 1829
Brainstem
auditory response
dietary fatty acids, rats, 740
structured triacylglycerols, neural function, rats, 1011
Breast-feeding
Barbados practices, infant growth, 1328
human milk, food supplement impact, lactation, 1692
maternal nutritional status, lactational amenorrhea, 1672
National Center for Health Statistics (NCHS), infant growth, 1134
Breath hydrogen
bifidobacteria and, humans, 996
excretion, maltitol tolerance, humans, 587
Budgerigars (*Melopsittacus undulatus*)
hematology values, aging effects, 2639S
Burns
injury
ornithine α-ketoglutarate administration, humans, 563
pharmacological nutrition, 797
Butterfat
absorption, lymph chylomicron, gastric digestion effects, rats, 2403
Butyrate
cecal fermentation, fatty acids, resistant proteins, rats, 1156
colonocyte metabolism during tumorigenesis, rats, 1262
dietary maltitol, colon cancer, rats, 536

C

Caco-2
cell culture, iron uptake from milk and formula, 257
ferritin formation, iron availability prediction, 1555
Calbindin D_{9k}
calcium absorption paradigm, for mineral absorption, 917
Calcium
absorption
fructooligosaccharide feeding, rats, 1815
fructooligosaccharides and, after gastrectomy, 106
arthritis inhibition, 1,25-dihydroxycholecalciferol, mice, 68
binding proteins, dietary fructooligosaccharides, rats, 934
bone density, turnover, female rats, 640
bone deposition rate, healthy girls, 1474
bone removal rate, healthy girls, 1474
control diet, zinc bioavailability, organic vs. inorganic, dogs, 2593S
deficiency, fluoride and malnutrition, rats, 1392
dietary protein, bone loss, humans, 1054
exchangeable bone compartment, healthy girls, 1474
high intake, magnesium requirements, cats, 2601S
LSRO report, nutrient requirements, term infant formulas, 2140S
maltitol-induced, increased bone strength, rats, 2028
metabolism, absorption rate, healthy girls, 1474
urinary, bone mineral content, salt intake, rats, 633
Calcium-ATPase
metabolism, chromium picolinate effects, rats, 180
Calcium ions
intracellular, chromium picolinate effects, rats, 180
Calves
colostrum intake, metabolic and endocrine traits, 624
cAMP-dependent protein kinase
activity, malnutrition, rats, 927
Canaries (*Serinus canarius*)
passerine species, comparative nutrition, 2684S
Cancer
breast, adipose tissue carotenoids, serum concentrations, humans, 1920
cervical, provitamin A carotenoids, humans, 1933
colon, dietary maltitol and, rats, 536
lung, risk, alcoholic beverages, humans, 694
nutrition and smoking, unhealthy patterns, 1450
pancreatic, fibrinogen synthesis, 1355
prevention, selenium biochemistry, basic research progress, 1845
Canine
reproduction, health characteristics, zinc, copper, manganese effects, 2603S
Canthaxanthin
supplementation, α- and γ-tocopherols status, mice, 1989
Capsaicin analog
stearoyl vanillylamide, oral administration, increased endurance, mice, 1978
Carbohydrates
consumption, energy intakes at high altitudes, humans, 50
decreased bone strength, rats, 1807
LSRO report, nutrient requirements, term infant formulas, 2131S
swine dysentery, nutritional effects, pigs, 1737
γ-Carboxyglutamic acid
vitamin K adequacy, dietary intake, 785
Carboxy-lyase
cysteine sulfinate, mRNA decreased expression, dietary protein effects, rats, 1890

Cardiomyopathy
dilated, antioxidant effects, dogs, 2768S
Cardiovascular disease
risk, soy protein, 1589
Carnitine
LSRO report, nutrient requirements, term infant formulas, 2120S
palmitoyltransferase I, muscle mitochondria activity, pigs, 886
Carnivores
milk intake measurements, mink, 2620S
protein effects, plasma and creatinine levels, mink, 2584S
quantitative urine collection accuracy, mink, 2758S
Carotene
supplement use, demographic, lifestyle, diet, health, humans, 2355
β-Carotene
bioavailability
humans, 913
triglyceride impairment, humans, 1361
9-*cis*, absorption, ferrets, 2009
15,15′-dioxygenase, cellular retinol-binding protein type II regulation, rats, 1614
impact, maternal night blindness, Nepal, 1458
nonheme iron absorption improvement, vitamin A, humans, 646
provitamin A activity, triglyceride impairment, humans, 1361
serum and skin, humans, 903
vitamin A, conversion value
ferrets, 271
gerbils, 280, 1179
Carotenoids
absorption, ferrets, 2009
metabolism, cervical tissue, provitamin A, humans, 1933
postprandial plasma effects, fruit, vegetables, red wine consumption, humans, 2391
serum concentrations, adipose tissue carotenoids, humans, 1920
Casein
antiatherogenic effects, soy protein comparison, (apo)E-deficient mice, 1884
soy protein effects and, interorgan amino acid metabolism, pigs, 2435
wheat diet, colon cancer, rats, 804
Catabolites
folate intakes, during pregnancy, humans, 204
Catalase
activity, peroxisomal β-oxidation, pigs, 1114
Cats
amino acid patterns, crude protein levels, 2577S
changing aging perspectives
body weight, body composition, 2627S
digestive functions, 2632S
energy requirements, 2623S
commercial dry food comparison, acidification, 2763S
copper requirements, reproduction, 2590S
diet, obesity, 2776S
dietary effects, lower urinary tract diseases, 2753S
dogs and, diet, skin disease, 2783S
fiber analysis
organic matter, pet food, 2798S
pet food comparison, 2795S
folate requirements, hematological parameters measurements, 2606S
food sensitivity, dermatologic signs, gastrointestinal diseases, 2790S
hematology, clinical chemistry parameters, 2678S
idiopathic feline hepatic lipidosis, serum lipoprotein characteristics, 2747S
lean and obese, tumor necrosis factor, adipose tissue, 2751S
lipid metabolism, plasma parameters, 2648S
low magnesium intake, high calcium diet, taurine measurements, 2581S
magnesium requirements, high calcium intake, 2601S
milk composition, milk yield, 2618S
(n-6) and (n-3) fatty acid effects, platelet functions, 2645S
nutrient requirements, factorial calculation, 2609S
obesity, dietary management advances, 2771S
pet food, energy estimation method, 2806S
phosphorus deficiency, investigations, 2598S
taurine status, cysteinesulfinic acid, 751
thyroid hormone levels, colony average, 2636S
urinary acidification, commercial dry food diet comparison, 2763S
vitamin B-6 deficiency, tyrosine aminotransferase, pyridoxal phosphate, 1995
Cattle
insulin sensitivity, ractopamine, 505
Cayuga syndrome
Atlantic salmon, maternal blood, egg and larval thiamin levels, 2456
Ceco-colonic fermentation
plasma cholesterol reduction, rats, 688
Cell(s)
Caco-2, copper kinetics, zinc effects, 1794
cerebrovascular endothelial, Menkes disease, Cu-ATPase, 1276
culture, gut bacteria, menaquinone-4 from phylloquinone, 220
growth regulation, selenium biochemistry, basic research progress, 1845
isolated, ruminal epithelial, uses, 293S
proliferation
after dietary iron supplementation, rats, 175
ammonia infusion, short-chain fatty acids, rats, 843
early weaning, intestinal growth, ornithine decarboxylase, rats, 1636
fish oil increases colonocyte differentiation and apoptosis, rats, 491
ovine skeletal muscle, peptides as amino acid sources for cultured cells, 251
3T3, zinc and IGF-I stimulation, DNA synthesis, 1600
Cellular retinol-binding protein II
β-carotene regulation, rats, 1614
Cellulose
dietary habits, fiber digestion, hedgehogs, 2671S
urease activity, GI tract, rats, 1186
Central nervous system
embryonic development, vitamin A role, 471S
Chelation
phytic acid effects, mineral utilization, rats, 1192
zinc bioavailability comparison, physiologic measurements, dogs, 2809S
Chemical extraction
whole body composition predicted by dual energy X-ray absorptiometry, rats, 246
Chemosensor
amino acid deficiency, regional neurochemistry, rats, 771
Chewing
resistant starch content, in vitro prediction method, 651
Chickens
amino acid utilization, immunologic stress, 1760
insulin-like growth factors, nutritional and developmental roles, 302S
Chickpeas
meal, protein, rats, 1042
wheat diet, colon cancer, rats, 804
Chicory
lipid metabolism and, rats, 1731
Children
development, natural disasters, public health, North Korea, 1315
diet, psychological influences, 407S
malnutrition
plasma protein kinetics, 214
vitamin A supplement, Zaire, 1320
Nepali, vitamin A deficiency, shared-plate eating, 1127
nutritional status, Demographic and Health Surveys use, 1672
preschool, zinc metabolism, requirements, 2369
under 5, low weight-for-age, measurement scale, Mexico, 2363
weight, adult disease, 411S
Chitin
chitosan effects, shrimp, 908
dietary habits, fiber digestion, hedgehogs, 2671S
Chitosan
chitin effects, shrimp, 908

Chloride
LSRO report, nutrient requirements, term infant formulas, 2172S
Cholesterol
cardiovascular disease risk, soy protein, isoflavones, 1589
cerebrum, development, pigs, 2498
deprivation, brain development, pigs, 2498
dietary
fat, public recommendations, 449S
fatty acids effect, 444S
low density lipoprotein (LDL) metabolism, monkeys, 1104
(n-3)/(n-6) fatty acids, red blood cell membranes, pigs, 1421
isoflavonoids phytoestrogens, serum lipids, humans, 728
lipids
methane producing status, humans, 1349
plasma, AHA Step I diet, 1429
serum, gerbils, 839
LSRO report, nutrient requirements, term infant formulas, 2107S
metabolism
dietary pectin, hamsters, 1944
soybean protein, rats, 1084
straw mushroom diets, hamsters, 1512
plasma
cecal fermentation effects, rats, 688
fatty acids effect, 444S
quercetin supplementation, heart disease risk factors, humans, 593
rice bran and hyperlipidemia, humans, 865
soy product intake and, humans, 209
Cholesteryl
esters, dietary flaxseed effects, fatty acid transport and metabolism, dogs, 2641S
Choline
LSRO report, nutrient requirements, term infant formulas, 2126S
Chromium
interaction, diabetes, insulin-like growth factors, rats, 2341
LSRO report, nutrient requirements, term infant formulas, 2180S
picolinate, calcium metabolism and, smooth muscle cell, rats, 180
Chyle
orally fed digalactosyldiacylglycerol, rats, 239
Chylomicron
globin digest, clinical study of, humans, 56
lymph, gastric digestion effects, butterfat absorption, rats, 2403
Citrate
infant formula, iron availability, Caco-2 cell culture, 257
Clinical chemistry
hematology and, cats, 2678S
Cod liver oil
lipids, nutritional significance, 423S
Colitis
dietary management, dogs and cats, 2717S
Collagen
long-term fructose consumption, glycation reaction, aging, rats, 1442
Colon
cancer
dietary fat effects, IGF receptor expression, rats, 158
iron supplementation, aberrant crypt foci development, rats, 764
wheat diet, rats, 804
cell proliferation, after dietary iron supplementation, rats, 175
$^{13}CH_3{}^{13}COOH$ from 3-^{13}C-glucose by *Bifidobacterium bifidum*, NMR detection, humans, 91
fecal fermentation, fecal flora in, breast-fed infants, 85
Colonocyte
metabolism, tumorigenesis, rats, 1262
Colostrum
intake, metabolic and endocrine traits, neonatal calves, 624
Companion animals
fructooligosaccharides composition, pet food ingredients, 2803S
Conjugated linoleic acid
milk, dietary oils, cows, 881
Copper
Caco-2 cells, zinc effects, 1794
deficiency
immature neutrophils, mice, 1855
reproduction, cats, 2590S
iron supplementation, aberrant crypt foci development, rats, 764
LSRO report, nutrient requirements, term infant formulas, 2164S
mineral effects, canine reproduction, health characteristics, 2603S
placental transport, high zinc diet, rats, 1037
requirements, reproduction, cats, 2590S
Cornstarch
high amylose, resistant proteins, cecal starch fermentation, rats, 1156
Coronary heart disease
nutrition and smoking, unhealthy patterns, 1450
Corticosterone
adrenal response, male Fischer 344 rats, 1415
ascorbic acid deficiency, acute phase proteins, rats, 832
Cortisol
vitamin E supplementation, interleukin-6 effects, pigs, 1657
Cottonseed flour
lipid digestion, absorption, rats, 2001
Coturnix coturnix japonica
vitamin A role, central nervous system development, 471S
Cows
conjugated linoleic acid effects, de novo fatty acid inhibitor, 2411
dairy, mammary gland metabolism, fatty acid effects, 1525
preruminant, amino acid deposition, 1774
Craniofacial
retinoid receptors, embryogenesis vertebrate, rats, 467S
Creatine
supplement effects, plasma and muscle changes, dogs, 2691S
Curly tail
mouse embryo, glucose effects, neural tube defects, 1819
Cyclooxygenase (COX)
bioactive lipids, human disease, 434S
Cysteic acid
taurine effects, cats, 751
Cysteine
metabolism, during sepsis, rats, 97
sulfinate, mRNA decreased expression, dietary protein effects, rats, 1890
urea nitrogen utilization, methionine supplementation, women, 720
Cysteinsulfinic acid
taurine status, cats, 751
Cytochrome P450 II E1
chronic ethanol consumption, glutathione status, rats, 758
Cytokines
nutrition, immunity, nematode infection, mice, 20

D

Daidzein
cardiovascular disease risk, soy protein, 1589
pharmacokinetics, soybean isoflavones, humans, 1710
DCT1
molecular genetics, iron transport, 1841
Decarboxylase
nitric oxide synthase, protein malnutrition, placental development, polyamines, pigs, 2395
Defensin
antimicrobial peptide expression, sheep, 297S
Demographic and Health Surveys
maternal nutritional status, lactational amenorrhea association, 1672
Dental hygiene
periodontal disease, domestic pets, 2712S
Desaturation
mammary gland metabolism, fatty acid effects, dairy cows, 1525
Diabetes
chromium interaction, diabetes, insulin-like growth factors, rats, 2341
mellitus

nutritional implications, protein restrictions, 321S
protein metabolism restrictions, 323S
Native Canadians, food preparation and consumption, 541
obesity, phenotypic consequences, leptin receptor gene, rats, 2299
starch structure, insulin action, rats, 35
Diarrhea
dermatologic signs and, food sensitivity, cats, 2790S
lactose-induced, vitamins A and E effects, rats, 2467
Diet
assessment, vitamin B-12 and folate status, young women, 1665
cats, obesity, 2776S
guidelines, children, 1836
high fat, intestinal lymphatic absorption, rats, 185
high protein, shigellosis, children, 1688
high zinc, placental copper transport, rats, 1037
history, changing American habits, 1253
hypoallergenic, large intestinal disease, dogs and cats, 2717S
(n-6) and (n-3) fatty acid effects, platelet functions, cats, 2645S
Native Canadians, diabetes and obesity, food preparation and consumption association, 541
neonatal intestinal development, pigs, 1302
plasma parameters, lipid metabolism, cats, 2648S
selection, low calcium, sweet substance reduction, rats, 1232
soy products, serum cholesterol levels and, humans, 209
sucrose, decreased bone strength, rats, 1807
Diethylenetrinitrilopentaacetate
zinc and IGF-I stimulation, DNA synthesis, 1600
Digestibility
comparative nutrient, pigs, blue foxes, mink and rats, 2676S
fiber effects, organic matter, energy, pet food, 2798S
functions, changing perspectives, 2632S
nitrogen and amino acids, cat food, 2801S
passerine species, comparative nutrition, 2684S
Digestion
animal by-products, diet nutrient intake, dogs, 2812S
beans, humans, 977
Caco-2 cell culture, iron uptake from milk and formula, 257
dietary fats, rats, 875
orally fed digalactosyldiacylglycerol, rats, 239
resistant starch, enteral formula effects, dogs, 2032
Dihomo-γ-linolenic acid
dietary importance, health and nutrition, humans, 1411
Disaccharides
LSRO report, nutrient requirements, term infant formulas, 2133S
Dissection
body composition estimation, pigs, 1543
Diurnal cycling
amino acids metabolic demands, human dietary requirement, 2563S
Diverticular disease
dietary fiber types, humans, 714
DNA
homocysteine and, folate depletion, humans, 1204
synthesis, zinc deprivation, IGF-I stimulation, 1600
Docosahexaenoic acid
dietary, arachidonic and, pigs, 1376
fatty acid composition, brain development, rats, 2473
structured triacylglycerols, brain neural function, rats, 1011
Dogs
acetate metabolism, kinetic study, 2651S
animal by-products effects, nutrient intake, digestion, 2812S
antioxidant effects, dilated cardiomyopathy, 2768S
blue foxes, mink, rats and, comparative nutrient digestibility, 2676S
body composition, effects of age, breed, 2680S
cats and, diet, skin disease, 2783S
cellulose effects, diet composition, digestibility, 2674S
changing aging perspectives
body weight, body composition, 2627S
digestive functions, 2632S
energy requirements, 2623S
commercial food, glycemic and insulinemic responses, 2654S
diet, probiotics use, 2730S
dietary flaxseed effects, fatty acid transport and metabolism, 2641S
dry food, probiotics use, 2730S
endogenous acetate metabolism, 111
fermentable fiber effects, glucose homeostasis improvement, 1786
fiber analysis
organic matter, pet food, 2798S
pet food comparison, 2795S
food adaptation time, blood sampling, glycemic and insulinemic effects, 2659S
grape juice, platelet aggregation inhibitor, monkeys and, 2307
halitosis, periodontal therapy effects, 2715S
jojoba seeds, satiating effects, dogs, 2669S
lactulose, meat and rice diet, hydrogen production, 2666S
lactulose ingestion effects, plasma acetate, 2663S
normal and obese, owners, feeding behavior comparison, 2779S
nutrition requirements, exercise, 2686S
obesity, dietary management advances, 2771S
pet food, energy estimation method, 2806S
plasma and muscle changes, creatine supplement effects, 2691S
renal disease, polyunsaturated fatty acid supplementation role, 2765S
rescue, high altitude, biological and nutritional effects, 2694S
resistant starch digestibility, enteral formula effects, 2032
urinary tract, health monitoring system, 2761S
zinc bioavailability
comparison, physiologic measurements, 2809S
organic vs. inorganic, 2593S
zinc propionate, bioavailability, 2596S
Dopamine
dietary fish oil effects, rats, 2512
Dose effect
chicory inulin, bifidogenic nature of (critical review), 11
Dual energy X-ray absorptiometry
whole body composition predicted by, rats, 246
Dysplasia
cervical, provitamin A carotenoids, humans, 1933

E

Eating
shared-plate, vitamin A deficiency, Nepali children, 1127
spontaneous food intake, macronutrient selection effects, humans, 61
Efflux
mammalian zinc transporters, nutritional advances, 667
Eicosanoids
bioactive lipids, human disease, 434S
vitamin E, atherosclerosis development, 1593
Elderly
R/Q353 polymorphism, factor CII, dietary effects, 870
Electrochemical detection
cervical tissues, provitamin A carotenoids, humans, 1933
Electroretinography
structured triacylglycerols, brain neural function, rats, 1011
Embryo
avian, vitamin A-deficient, 455S
curly tail mouse, glucose effects, neural tube defects, 1819
rainbow trout, boron stimulated growth, 2488
Embryogenesis
insulin-like growth factors, nutritional and developmental regulations, fish, 306S
retinoic acid synthesis, alcohol dehydrogenase, mice, 459S
vertebrate, retinoid receptors, rats, 467S
vitamin A, development, 455S
Endogenous N
amino acid levels, isotope dilution method, pigs, 1969
^{15}N-leucine infusion technique, amino acid levels, pigs, 1961

Endoscopy
gastrointestinal examination, possible food allergy, cats, 2792S
Endothelium
injury, vitamin E, atherosclerosis development, 1593
Endotoxin
green tea polyphenols, anti-inflammatory mechanism, mice, 2334
Energy
changing perspectives, aging, digestive functions, 2632S
expenditure, D-tagatose and respiratory gas exchange, humans, 1481
fiber effects, organic matter, pet food, 2798S
intake, macronutrient selection, high altitudes, humans, 50
lactation, homeostatic regulations, 394S
lipids, nutritional significance, 423S
LSRO report, nutrient requirements, term infant formulas, 2085S
metabolizable
dietary fat, fiber, digestibility, humans, 2374
diet assessment systems evaluation, humans, 986
estimation method, pet foods, 2806S
passerine species, comparative nutrition, 2684S
requirements
changing aging perspectives, 2623S
hepatobiliary disease, dogs and cats, 2733S
maintenance, maximum weight gain, in red drum, 123
restriction
bone density and turnover, female rats, 640
cAMP-dependent protein kinase, malnutrition, rats, 927
vs. zinc deficiency immune effects of, mice, 20
Enzymes
conjugative activity, (−)-epicatechin metabolism accumulation, rats, 1172
metabolism, essential fatty acids importance, human health, 427S
Eosinophilia
possible food allergy, cats, 2792S
Eosteocalcin
vitamin K adequacy, dietary intake, 785
Epidemiology
alcoholic beverages, lung cancer risk, humans, 694
Epithelium
intestinal, hot spices effects, humans, 577
isolated ruminal cells, uses, 293S
mammary cells, peptide utilization, 744
Erythrocytes
zinc induced, human metallothionein expression, 707
Ethanol
low calcium diet, sweet substance reduction, rats, 1232
Eucalyptus (*Eucalyptus globulus*)
antihyperglycemic effects, diabetes treatment, diet, mice, 2319
Eukaryotic transcription factors
identification, characterization, functions, 2045
Excretion
fecal sterol, lipoprotein inulin effects, hamsters, 1937
lignan metabolites, disposition of, rats, 615
urinary, folate nutritional status, humans, 1907
Exercise
chromium metabolism and, humans, 73
horses, digestibility, diet, 2704S
during lactation, energy restriction effects, 386S
nutritional requirements, dogs, 2686S
performance, glutathione and glutathione ethyl ester supplementation, mice, 2420
training
diet and, immunity interaction, rats, 498
down-regulates lipogenic enzymes, meal-fed rats, 810
Eye
retinoid receptors, embryogenesis vertebrate, rats, 467S

F

Factorial calculation
nutrient requirements, cats, 2609S
Factor VII
R/Q353 polymorphism, dietary effects, elderly, 870
Famine
natural disasters, public health, North Korean children, 1315
Fat
absorption, digestion, rats, 2001
consumption, energy intakes at high altitudes, humans, 50
content, body composition assessment, dual-energy X-ray absorptiometry, rats, 1550
dietary
alters cell proliferation, rat colon, 158
digestibility, rats, 875
docosahexaenoic acid increases hormone concentration, rats, 1257
energy metabolism, fiber, digestibility, humans, 2374
factor VII, R/Q353 polymorphism, elderly, 870
leptin, obesity, rats, 1606
lipids, nutritional significance, 423S
milk conjugated linoleic acid concentrations, cows, 881
nutritional value, ideas evolution, 421S
public recommendations, 449S
digestion, absorption, rats, 2001
LSRO report, nutrient requirements, term infant formulas, 2089S
mass, body composition during lactation, women, 381S
milk, conjugated linoleic acid effects, de novo fatty acid inhibitor, cows, 2411
saturated
antioxidant status, diet-induced changes, rats, 1620
low density lipoproteins, gerbils, 477
lymph chylomicron, gastric digestion effects, rats, 2403
substitute, digestibility, rats, 875
Fat-free mass
body composition during lactation, women, 381S
Fatigue
malnutrition effects, muscle glycolysis, rats, 1723
Fatty acids
β-carotene and, cellular retinol-binding protein II regulation, rats, 1614
cecal fermentation, resistant proteins, rats, 1156
cholesterol levels, effect, 444S
dietary
fat lipid response, overweight humans, 1144
LDL in vitro oxidation, humans, 1703
long-chain (n-3) and, exercise immunity interaction, rats, 498
small intestinal malnutrition and, pigs, 224
essential, metabolism, human health importance, 427S
lecithin cholesterol acyltransferase secretion, rats, 1270
LSRO report, nutrient requirements, term infant formulas, 2107S
mammary metabolism, lactating dairy cows, 1525
milk production, composition, horses, 2708S
monounsaturated, very low density lipoprotein triacylglycerols composition, humans, 570
(n-3)
antioxidant status, diet-induced changes, rats, 1620
dietary fish oil effects, rats, 2512
dietary flaxseed effects, dogs, 2641S
manipulation effects, platelet functions, cats, 2645S
pharmacological nutrition, burn injury, 797
red blood cell membranes, miniature pigs, 1421
(n-6)
antioxidant status, diet-induced changes, rats, 1620
dietary fish oil effects, rats, 2512
manipulation effects, platelet functions, cats, 2645S
red blood cell membranes, miniature pigs, 1421
nonesterified, gene obese expression, food deprivation, pigs, 677
oxidation, carnitine palmitoyltransferase I, pig muscle mitochondria, 886
polyunsaturated
arachidonic and docosahexaenoic, pigs, 1376
dietary fish oil effects, rats, 2512
gene expression regulation, 923
importance in human health, 427S

insulin effects, rats, 512
large intestinal disease, dogs and cats, 2717S
lipogenic enzyme, inflammation, vitamin A supplementation, rats, 967
soybean protein, rats, 1084
supplement role, canine renal disease, 2765S
utero exposure, increased protein kinase C activity, mice, 2505
quercetin supplementation, heart disease risk factors, humans, 593
short-chain
ammonia infusion, rats, 843
fermentable fiber effects, glucose homeostasis improvement, dogs, 1786
methane producing status and lipids, humans, 1349
plasma cholesterol reduction, cecal fermentation, rats, 688
weanling diet, intestinal function, pigs, 947
skin disease, diet, dogs and cats, 2783S
synthase
exercise training down-regulates lipogenic enzymes, meal-fed rats, 810
lipid metabolism, rats, 1283
starch diet effects, lipogenics, rats, 1878
α-tocopherol, zinc deficiency and, rats, 265
trans, conjugated linoleic acid effects, de novo fatty acid inhibitor, cows, 2411
trans-, NCEPP II diet, postprandial triacylglycerol, humans, 582
volatile, wheat differences in, energy metabolism, nutritional effects of, rats, 234
Feeding
amino acid deficiency, regional neurochemistry, rats, 771
antisense oligonucleotide, brain GLUT2, rats, 287
enteral, vs. intravenous glutamine, atrophy, pigs, 2723S
imbalanced amino acid diet, brain lesions, rats, 1213
milk, atrophy, pigs, 2727S
nutrition developments, during this century, horses, 2698S
ob/ob mice, neuropeptide Y, corticotropin-releasing hormone effects, 2520
protein restriction adaptations, diabetes, 333S
Fermentation
$^{13}CH_3{}^{13}COOH$ from 3-^{13}C-glucose by *Bifidobacterium bifidum*, humans, NMR detection, 91
colonic
fecal flora by, breast-fed infants, 85
methane producing status and lipids, humans, 1349
dietary maltitol, colon cancer, rats, 536
hydrogen production, lactulose, meat and rice diet, dogs, 2666S
lactulose ingestion effects, plasma acetate, dogs, 2663S
D-tagatose and respiratory gas exchange, humans, 1481
Ferrets
β-carotene conversion to vitamin A, 271
9-*cis* β-carotene, absorption, 2009
Ferritin
dietary iron effects, iron regulatory proteins, rats, 525
formation, iron availability prediction, 1555
iron regulatory proteins, responsive elements, homeostasis, 2295
Fetus
β-defensin expression, sheep, 297
fluids, amino acids, pigs, 894
ovine, insulin regulations of amino acid metabolism, 342S
placental development, nitric oxide synthase, protein malnutrition, polyamines, pigs, 2395
Fiber
bean digestion, humans, 977
cellulose effects, diet composition, digestibility, dogs, 2674S
chitin and chitosan effects, shrimp, 908
dietary
alimentary lipemia and, rats, 1031
analysis comparison, pet foods, 2795S
assessment systems evaluation, human, 986
chicory and lipid metabolism, rats, 1731
colonocyte metabolism, tumorigenesis, rats, 1262
diverticular disease, humans, 714
energy metabolism, fat, digestibility, humans, 2374
factor VII, R/Q353 polymorphism, elderly, 870
management advances, obesity, dogs and cats, 2771S
microbial polyamine synthesis, rats, 1385
nucleic acid synthesis, in vivo, mice, 1562
pectin, cholesterol metabolism, hamsters, 1944
psyllium altered bile acid metabolism, rats, 1199
resistant starch content, in vitro prediction method, humans, 651
digestibility effects, organic matter, energy, pet food, 2798S
enteral diets, nutrient absorption, miniature pigs, 2446
fermentable, large intestinal disease, dogs and cats, 2717S
insoluble, diverticular disease, humans, 714
rice bran and hyperlipidemia, humans, 865
soluble
diverticular disease, humans, 714
supplementation, lipids, humans, 1927
sugar-beet, plasma cholesterol reduction, cecal fermentation, rats, 688
Fibrinogen
hepatic protein metabolism, measured by fractional secretory rates, 198
$^2H_5$-phenylalanine, fasted cancer patients, 1355
Fibroblasts
gel electrophoresis, protein expression in acrodermatitis, humans, 1311
Fish
insulin-like growth factors, nutritional and developmental regulations, 306S
oil
biological and nutritional effects, rescue dogs, 2694S
colonocyte differentiation and apoptosis effects, rats, 491
dietary effects, rats, 2512
dietary fatty acids, neurodevelopment, rats, 740
ornamental, *astronotus ocellatus*, vitamin C essential, 1745
red drum, protein and energy requirements, 123
Flavonoids
lipid peroxidation and, rats, 1495
Flaxseed
dietary effects, fatty acid transport and metabolism, dogs, 2641S
lignans effects, reproduction, rats, 1861
Fluidity
red blood cell membranes, (n-3)/(n-6) fatty acids, miniature pigs, 1421
Fluoride
chronic exposure, malnutrition, rats, 1392
LSRO report, nutrient requirements, term infant formulas, 2177S
Flux
amino acid kinetics, stable isotopes, oxidation, humans, 1913
rate, lactulose ingestion effects, plasma acetate, dogs, 2663S
Folate
bioavailability, properties, 1956
catabolism during pregnancy, humans, 204
food, properties, 1956
intake, kinetic consequences, nonpregnant women, 1896
nutritional status, isotopic excretion, humans, 1907
requirements, hematological parameters measurements, cats, 2606S
vitamin B-12 status and, young women, 1665
Folic acid
depletion, homocysteine and DNA methylation, humans, 1204
LSRO report, nutrient requirements, term infant formulas, 2194S
supplementation, methylenetetrahydrofolate reductase effects, humans, 1336
Food
childhood diet preferences, psychological influences, 407S
consumption and preparation association, diabetes and obesity, Native Canadians, 541
deprivation, glucose metabolism/muscle pH effects of, rats, 28
diet history, changing American habits, 1253
folate, properties, 1956
fortified, Guatemalan toddlers diet, 860
hypersensitivity, cats, 2792S
intake, regulation, zinc deficiency, macronutrient selection, rats, 43, erratum, 921
pet
energy estimation method, 2806S

fiber analysis comparison, 2795S
glycemic and insulinemic responses, 2659S
nitrogen, amino acid digestibility, 2801S
processing
egg protein digestibility, humans, 1716
glycemic and insulinemic effects, dogs, 2654S
restriction, adrenocortical responsiveness to ACTH, male Fischer 344 rats, 1415
sensitivity, dermatologic signs, gastrointestinal diseases, cats, 2790S
sharing, vitamin A deficiency, Nepali children, 1127
supplementation impact, lactation, breast-milk intake, humans, 1692
thermic effect, energy metabolism, dietary fat, fiber, digestibility, humans, 2374
Food Stamp Program
household participation, increased nutrient intake, children, 548
Forage
all or mixed grain, exercise effects, digestibility, horses, 2704S
Formiminoglutamic acid
excretion, after histidine loading, cats, 2606S
Formula
infant, Caco-2 cell culture, iron uptake from, 257
LSRO report
minimum/maximum nutrient levels, 2083S
nutrient requirements, term infants, 2079S
Foxes
dogs, mink, rats and, comparative nutrient digestibility, 2676S
Frontal cortex
dietary fish oil effects, rats, 2512
Fructooligosaccharides
calcium absorption, rats, 1815
composition, pet food ingredients, 2803S
dietary
calcium binding concentrations, rats, 934
postgastrectomy ostopenia prevention, 106
gastrectomy, rats, 485
short-chain, lipid metabolism, rats, 1283
Fructose
exercise training down-regulates lipogenic enzymes, meal-fed rats, 810
long-term consumption, glycation reaction, aging, rats, 1442
soluble-fiber supplementation, lipids, humans, 1927
Fruit
human consumption, serum antioxidant capacity, 2383
postpranidal plasma carotenoid effects, vegetables, red wine consumption, humans, 2391

G

Galactolipids
orally fed digalactosyldiacylglycerol, rats, 239
Galanin
zinc deficiency, rats, 43, erratum, 921
Gastrectomy
after osteopenia, dietary fructooligosaccharides, 106
dietary fructooligosaccharides, rats, 485
Gastroenteritis
possible food allergy, cats, 2792S
Gel electrophoresis
two-dimensional polyacrylamide, protein expression in acrodermatitis, humans, 1311
Gender
dietary fiber, lipoprotein metabolism, guinea pigs, 1434
Gene
IGF-binding, nutrition, growth, reproduction, pigs, 315S
regulation
polyunsaturated fatty acids, 923
thiamine-dependent, humans, 683, erratum, 1247
Gene expression
dietary fat alters cell proliferation, rats, 158
dietary selenium supplementation, pigs, 130
hepatic histidase response, protein rehabilitation, rats, 1631
histidase, dietary protein, rats, 818
histidine, availability, glucagon mRNA levels, mice, 973
insulin-like growth factor, nutritional and developmental regulations, fish, 306S
lecithin cholesterol acyltransferase secretion, fatty acids, rats, 1270
lipogenic enzyme, inflammation, vitamin A supplementation, rats, 967
obesity, pigs, 677
utility importance, nutritional, metabolic research, 2052
Genistein
cardiovascular disease risk, soy protein, 1589
dietary isoflavones reduce atherosclerosis, mice, 954
isoflavonoids phytoestrogens, serum lipids, humans, 728
pharmacokinetics, soybean isoflavones, humans, 1710
Gerbils
Mongolian, vitamin A value, β-carotene, 280, 1179
saturated fat, low-density lipoprotein production, 477
soy, isoflavones, serum lipids, 839
Globin digest
postprandial hyperlipidemia, effect of, rats, 56
Glomerulosclerosis
canine renal disease, polyunsaturated fatty acid supplementation role, 2765S
Glucagon
histidine availability, mRNA levels, mice, 973
β-Glucan
hydrogen/methane, oat extract consumption, expiration after, humans, 79
Glucose
exogenous, ex vivo muscle pH, nutritional state of, rats, 28
insulin-dependent utilization, veal calves, 1023
LSRO report, nutrient requirements, term infant formulas, 2131S
metabolism
carbohydrate intake, mice, 733
ractopamine, insulin sensitivity, cattle, 505
reduced consumption, neural tube defects, *curly tail* mouse embryo, 1819
tolerance, chromium excretion and, exercise, humans, 73
GLUT2
antisense oligonucleotide, food intake and, rats, 287
Glutamate
synthesis, carbohydrate intake, glucose metabolism partitioning, mice, 733
Glutamine
alanine and, splanchnic nitrogen sparing, rats, 1487
intravenous vs. enteral feedings, atrophy, pigs, 2723S
LSRO report, nutrient requirements, term infant formulas, 2125S
pharmacological nutrition, burn injury, 797
Glutathione
cysteine metabolism, during sepsis, rats, 97
LSRO report, nutrient requirements, term infant formulas, 2125S
peroxidase
antioxidant effects, dilated cardiomyopathy, dogs, 2768S
cellular, antioxidative role, mice, 1070
dietary selenium supplementation and, weanling pigs, 130
reduced, lung injury protection, protein-energy malnourished rats, 671
status, chronic ethanol consumption, rats, 758
supplementation, exercise performance, mice, 2420
Glycation
long-term fructose consumption, aging, rats, 1442
Glycemic
index, starch diet effects, lipogenic enzymes, rats, 1878
response
commercial dog food, 2654S
food adaptation time, blood sampling, dogs, 2659S
Glycetein
cardiovascular disease risk, soy protein, 1589
Glycine
LSRO report, nutrient requirements, term infant formulas, 2125S
urea nitrogen utilization, methionine supplementation, women, 720

Glycolysis
muscle, malnutrition effects, rats, 1723
Goiter
iodine deficiency disorders indicator, humans, 1122
Grape juice
platelet aggregation inhibitor, monkeys, dogs, 2307
Growth
boron stimulated, rainbow trout embryo, 2488
catch-up, shigellosis, dietary supplementation impact, children, 1688
dietary arachidonic and docosahexaenoic acids, pigs, 1376
docosahexaenoic acid increase, hormone concentrations, rats, 1257
factors, protein synthesis, hormone sensitivity, 356S
folate requirements, cats, 2606S
intestinal, early weaning, ornithine decarboxylase, rats, 1636
megestrol, insulin-like growth factor-1 effects, zinc deficiency, rats, 136
morphometrics and, dietary protein, iguanas, 2587S
vitamin A supplement, malnourished children, Zaire, 1320
Guar gum
AHA Step I diet, cholesterol-lowering effects, 1429
Guatemala
fortified foods, toddlers diet, 860
infants, zinc supplementation, growth, 556
Guidelines
dietary, public recommendations, 449S
Guinea pigs
dietary fiber, lipoprotein metabolism, 1434
fed oxidized frying oil, dietary vitamin C raises tissue vitamin E, 116

H

Halitosis
periodontal therapy effects, dogs, 2715S
Hamsters
dietary pectin, cholesterol metabolism, 1944
lipoprotein inulin effects, bile acid metabolism, 1937
straw mushroom diets, cholesterol metabolism, 1512
HCT-8 cells
intestinal epithelia, hot spices effects, humans, 577
Health
foal, milk production, composition, fatty acids, 2708S
urinary tract, health monitoring system, dogs, 2761S
Heart
disease, grape juice, platelet aggregation inhibitor, monkeys, dogs, 2307
retinoid receptors, embryogenesis vertebrate, rats, 467S
vitamin A, embryonic development, 455S
Hedgehogs (*Atelerix albiventris*)
fiber digestion, dietary habits, 2671S
Hematology
clinical chemistry parameters and, cats, 2678S
values, aging effects, budgerigars, 2639S
Hemochromatosis
molecular genetics, iron transport, 1841
Homeostatic
adaptations, lactation regulations, 394S
Hepatic encephalopathy
nutritional support, dogs and cats, 2733S
Hepatic lipidosis
serum lipoprotein characteristics, cats, 2747S
tumor necrosis factor, adipose tissue, lean and obese cats, 2751S
Hepatic retinol storage
inflammation, vitamin A supplementation, rats, 960
Hepatobiliary disease
nutritional support, dogs and cats, 2733S
Hepatocytes
rat, lecithin cholesterol acyltransferase secretion, fatty acids, 1270
HFE
molecular genetics, iron transport, 1841
Histidase
gene expression
dietary protein, rats, 818
protein rehabilitation, rats, 1631
Histidine
availability, glucagon mRNA levels, mice, 973
Homeorhetic
adaptations, lactation regulations, 394S
Homoarginine
amino acids, soybean trypsin inhibitors, pigs, 598
Homocysteine
DNA methylation and, folate depletion, humans, 1204
folate status, isotopic excretion, humans, 1907
methylenetetrahydrofolate reductase effects, folic acid supplementation, humans, 1336
Hormones
adrenal corticotrophic, docosahexaenoic acid increase, rats, 1257
anabolic, sarcopenia, humans, 351S
colostrum intake, neonatal calves, 624
corticotropin-releasing, food intake inhibitor, ob/ob mice, 2520
insulin-like growth factors, nutritional and developmental roles, poultry, 302S
mitochondria branched-chain aminotransferase, rats, 1368
thyroid kinetics, iron-deficient rats, 1401
thyroid stimulating
docosahexaenoic acid increase, rats, 1257
iodine deficiency disorders, humans, 1122
Horses
exercise effects, digestibility, diet, 2704S
milk production, composition, fatty acids, 2708S
nutrition developments, during this century, 2698S
Human-animal relationship
feeding behavior comparison, owners, normal and obese dogs, 2779S
Humans
adolescent obesity study, United States, 701
AIDS patients, amino acid requirements, 1342
amino acid requirements, nutrition, 1570
bifidobacteria, breath hydrogen, 996
breast-milk intake, food supplement impact, lactation, 1692
breath hydrogen excretion, maltitol tolerance, 587
β-carotene, bioavailability, 913
triglyceride impairment, 1361
colonic fermentation, fecal flora by, breast-fed infants, 85
deficiencies, importance of essential fatty acids, 427S
dietary protein, bone loss, 1051, 1054
diet assessment systems, evaluation, 986
diverticular disease, dietary fiber types, 714
egg protein digestibility, stable isotopes, 1716
energy
intake, macronutrient selection, high altitude, 50
metabolism, dietary fat, fiber, digestibility, 2374
exercise, chromium excretion and, 73
fibrinogen synthesis, fasted cancer patients, 1355
food intake, intake prior day, effect of, 61
gel electrophoresis, protein expression in acrodermatitis, 1311
hepatic protein metabolism, after moderate/large doses of ethanol, 198
homeostatic mechanisms, lactation regulations, 394S
homocysteine and DNA methylation, folate depletion, 1204
hydrogen/methane expiration, oat extract consumption after, 79
insulin regulations, of fetal amino acid metabolism, 342S
iodine deficiency disorders indicator, urinary excretion, 1122
isoflavonoids phytoestrogens, serum lipids, 728
isotopic excretion, folate nutritional status, 1907
LDL in vitro oxidation, dietary fat, 1703
lung cancer risk, alcoholic beverages, 694
metallothionein expression, zinc induced, 707
methane-producing status, lipids, 1349
methylenetetrahydrofolate reductase effects, folic acid supplementation, 1336

muscle proteins, sarcopenia, 351S
National Center for Health Statistics (NCHS), infant growth, 1134
NCEPP II diet, postprandial triacylglycerol, 582
NMR detection, $^{13}CH_3{}^{13}COOH$ by *Bifidobacterium bifidum* from 3-^{13}C-glucose, 91
nonpregnant women, folate kinetics, 1896
Nordic Nutrition Recommendations, toxicity considerations, dietary standards, 372S
ornithine α-ketoglutarate administration, burn injury, 563
overweight, dietary fat lipid response, 1144
pharmacokinetics, soybean isoflavones, 1710
postprandial hyperlipidemia, globin digest, effect of, 56
postpranidal plasma carotenoid effects, fruit, vegetables, red wine consumption, 2391
pregnancy, folate catabolism during, 204
protein synthesis, hormone sensitivity, 356S
provitamin A carotenoids, cervical tissue, plasma concentrations, 1933
quercetin supplementation, heart disease risk factors, 593
retinol-binding protein, vitamin A supplementation, rats, 1681
rice bran and hyperlipidemia, cholesterol, 865
D-tagatose, respiratory gas exchange, 1481
serum
  antioxidant capacity, fruit, vegetables, red wine consumption, 2383
  concentrations, adipose tissue carotenoids, 1920
  and skin, β-carotene, 903
sodium iron EDTA, manganese absorption, 1139
soluble fiber supplementation, lipids, 1927
soy product intake, relationship with serum cholesterol, 209
stable isotopes, amino acid kinetics, oxidation determination, 1913
supplement use, demographic, lifestyle, diet, health, 2355
thiamine dependent, gene regulation, 683, erratum, 1247
α-tocopherol concentrations, menstrual fluctuation, 1150
urea nitrogen utilization, methionine supplementation, women, 720
very low density lipoprotein triacylglycerols, composition, 570
vitamin A, polymeric immunoglobulin receptor (pIgR) expression, 1063
in vitro prediction method, resistant starch content, 651
in vivo neutron activation analysis, total body element content, 1008
wine polyphenols, plasma antioxidant capacity, 1003
Hydrogen
oat extract consumption, expiration after, humans, 79
production, lactulose effects, meat and rice diet, dogs, 2666S
D-tagatose and respiratory gas exchange, humans, 1481
Hydrolases
brush border membrane, neonatal intestinal development, pigs, 1302
15-Hydroxyeicosatrienoic acid
dietary importance, health and nutrition, humans, 1411
Hydroxypropyl distarch phosphate
modified potato starch effects, rats, 848
Hydroxypropyl starch
modified effects, rats, 848
Hypercholesterolemia
soluble-fiber supplementation, lipids, humans, 1927
Hyperglycemia
Psammomys obesus sand rats, lipogenesis effects, 1984
Hyperinsulinemia
Psammomys obesus sand rats, lipogenesis effects, 1984
Hyperlipidemia
rice bran and, humans, 865
Hyperoxia
reduced glutathione, lung injury protection, protein-energy malnourished rats, 671
Hypertension
canine renal disease, polyunsaturated fatty acid supplementation role, 2765S
chromium picolinate and calcium metabolism, rats, 180
Hyporetinemia
retinol-binding protein, vitamin A supplementation, humans, rats, 1681
Hypothalamus
neuropeptide Y, corticotropin-releasing hormone effects, ob/ob mice, 2520
zinc deficiency and neuropeptide Y, rats, 1218
Hypotriglyceridemic effect
globin digest, clinical study of, humans, 56

I

IEC-6 cells
vitamin A effects, bone-type alkaline phosphatase, small intestine, rats, 1869
Iguanas (*Iguana iguana*)
protein levels, growth and morphometrics, 2587S
Ileal cannulation
animal by-products, diet nutrient intake, dogs, 2812S
Ileal digestibility
dilution method, ^{15}N amino acid, pigs, 1969
Ileum
amino acid levels, ^{15}N-leucine infusion technique, pigs, 1961
Immune response
polysaccharide peptides effects, mice, 193
Immunity
copper deficient mice, immature neutrophils, 1855
Immunoglobulin
milk production, composition, fatty acids, horses, 2708S
Incretins
oligofructose-induced hypolipidemia effects, hormones, rats, 1099
Infants
Barbados feeding practices, growth, 1328
breast-fed, fecal fermentation in, 85
$^{13}CH_3{}^{13}COOH$ from 3-^{13}C-glucose by *Bifidobacterium bifidum*, NMR detection, 91
Inflammation
localized, protein-deficient diet, acute-phase response, rats, 166
systemic, protein-deficient diet, acute-phase response, rats, 166
Inositol
LSRO report, nutrient requirements, term infant formulas, 2127S
triphosphate, iron deficiency, lymphocyte activation, mice, 1077
Insectivore
hedgehogs, dietary habits, fiber digestion, 2671S
Insulin
action
  antihyperglycemic effects, diet, mice, 2319
  starch structure, rats, 35
chromium picolinate, calcium metabolism and, rats, 180
dependent, glucose utilization, veal calves, 1023
dietary (n-3) fatty acids effects, rats, 512
gene obese expression, food deprivation, pigs, 677
leptin receptor gene, obesity, phenotypic consequences, rats, 2299
oligofructose-induced hypolipidemia effects, hormones, rats, 1099
protein metabolism, in diabetes mellitus, 328S
protein synthesis, hormone sensitivity, 356S
protein synthesis roles, neonates, 347S
receptor
  dietary (n-3) fatty acids effects, rats, 512
  protein malnutrition action and, rats, 1643
  substrate-1, protein malnutrition action and, rats, 1643
regulations, of fetal amino acid metabolism, 342S
response, exercise, chromium excretion and, humans, 73
secretion
  antihyperglycemic effects, diet, mice, 2319
  protein malnutrition action and, rats, 1643
sensitivity, ractopamine, cattle, 505
Insulinemic
response
  commercial dog food, 2654S
  food adaptation time, blood sampling, dogs, 2659S

Insulin-like growth factors
chromium and diabetes interaction, diabetes, rats, 2341
dietary fat alters cell proliferation, rat colon, 158
metabolism, nutrition and developmental regulations, fish, 306S
nutrition
developmental roles, 300S
growth, reproduction, pigs, 315S
stimulation, zinc deprivation, 1600
zinc deficient rats, 136
Intake
colostrum, metabolic and endocrine traits, neonatal calves, 624
dietary fat, psychological influences, children, 407S
dietary management advances, obesity, dogs and cats, 2771S
dietary reference, setting dietary allowances, exposure limits, 364S
dry matter, cellulose effects, digestibility, dogs, 2674S
energy, caloric restriction, exercise effects during lactation, 386S
food, gene obese expression, pigs, 677
food regulation, zinc deficiency and neuropeptide Y, rats, 1218
fortified foods, Guatemalan toddlers diet, 860
macronutrient, low calcium diet, sweet substance reduction, rats, 1232
nutrient supplement, Food Stamp and WIC Programs, children, 548
safe ranges, mineral standards, perspective, 375S
sodium, bone calcium content, metabolism, rats, 633
upper limits, Nordic Nutrition Recommendations, 372S
Interleukin-1
zinc deficiency, metallothionen expression, rats, 1092
Interleukin-6
ascorbic acid deficiency, acute phase proteins, rats, 832
vitamin E supplementation, pigs, 1657
International migration
adolescent obesity study, United States, 701
Intestinal pteroylpolyglutamate hydrolase
food folate properties, stability and susceptibility, 1956
Intestines
calcium absorption, fructooligosaccharides, rats, 1815
β-carotene and, cellular retinol-binding protein II regulation, rats, 1614
mucosa, amino acid metabolism, 1249
small
atrophy, oral milk feedings, pigs, 2727S
intravenous glutamine vs. enteral feedings, atrophy, pigs, 2723S
sojourn time, calcium absorption paradigm for mineral absorption, 917
vitamin A effects, bone-type alkaline phosphatase, fetal rats, 1869
Inulin
chicory
bifidogenic nature (critical review), 11
lipid metabolism, rats, 1731
lipoprotein effects, bile acid metabolism, hamsters, 1937
quantitative urine collection accuracy, mink, 2758S
In vitro digestion
ferritin formation, iron availability prediction, 1555
In vivo neutron activation analysis
total body element content, humans, 1008
In vivo technique
body composition assessment, dual-energy X-ray absorptiometry, rats, 1550
Iodine
deficiency
history, McCollum International Lecture, 145
urinary excretion, humans, 1122
LSRO report, nutrient requirements, term infant formulas, 2167S
Ion exchange chromatography
fructooligosaccharide composition, pet food ingredients, 2803S
Iron
availability
citrate improves, infant formula, 257
ferritin formation, 1555
deficiency
anemia, food cooked in iron pots, preterm infants, 855
history, McCollum International Lecture, 145
lymphocyte activation, mice, 1077
dietary intake, affects iron regulatory proteins, rats, 525
fortification, manganese excretion, humans, 1139
LSRO report, nutrient requirements, term infant formulas, 2147S
metabolism, regulatory proteins, homeostasis, 2295
nonheme, absorption improvement: vitamin A and β-carotene, humans, 646
nutritional status, food cooked in iron pots, preterm infants, 855
phytic acid effects, free radicals, rats, 1950
placental copper transport, high zinc diet, rats, 1037
pots, food cooked in, nutritional status, preterm infants, 855
supplementation
aberrant crypt foci development, rats, 764
crypt cell proliferation after, rats, 175
Iron regulatory proteins (IRPs)
responsive elements, homeostasis, 2295
Iron responsive element (IREs)
regulatory proteins, homeostasis, 2295
Irritable bowel syndrome
dietary management, dogs and cats, 2717S
Isoeicosanoids
bioactive lipids, human disease, 434S
Isoflavones
antiatherogenic effects, soy protein/casein comparison, (apo)E-deficient mice, 1884
dietary, atherosclerosis reduction, mice, 954
phytoestrogens, serum lipids, humans, 728
serum lipids, gerbils, 839
soy protein and, cardiovascular disease risk, 1589
Isomers
β-carotene bioavailability, humans, 913
Isoprostanes
bioactive lipids, human disease, 434S
Isotopes
nucleic acid synthesis, in vivo, mice, 1562
ratio mass spectrometry, amino acid endogenous loss, pigs, 1969
soy and protein effects, interorgan amino acid metabolism, pigs, 2435
stable
carbohydrate intake, glucose metabolism partitioning, mice, 733
chromium, exercise effects on chromium excretion, humans, 73
hepatic metabolism, dietary amino acids, pigs, 1517
Isotretinoin
teratogenicity, zinc inhibition, mice, 1239

J

Japan
serum cholesterol levels, soy product intake, humans, 209
Jojoba (*Simmondsia chinensis*)
seeds, satiating effects, dogs, 2669S

K

α-Keto acid
branched-chain dehydrogenase, rats, 1165
α-Ketoglutarate dehydrogenase
thiamine-dependent gene regulation, humans, 683, erratum, 1247
Kinetics
amino acids, threonine requirements, total parental nutrition, pigs, 1752
calcium absorption, fructooligosaccharide feeding, rats, 1815
consequences, folate intake, nonpregnant women, 1896
protein metabolism, in diabetes mellitus, 328S

L

Lactation
  amenorrhea, Demographic and Health Surveys, maternal nutritional status, 1672
  branched-chain amino acid metabolism, rats, 1165
  exercise during
    body composition, women, 381S
    energy restriction effects, 386S
    maternal body composition, caloric restriction, 379S
  factorial calculation, nutrient requirements, 2609S
  food supplement impact, breast-milk intake, humans, 1692
  regulations, during energetic stress, 394S
Lactoferrin
  LSRO report, nutrient requirements, term infant formulas, 2118S
Lactose
  insulin-dependent glucose utilization, veal calves, 1023
  LSRO report, nutrient requirements, term infant formulas, 2133S
Lactulose
  hydrogen production, meat and rice diet, dogs, 2666S
  ingestion effects, plasma acetate, dogs, 2663S
Large intestine
  ammonia infusion, short-chain fatty acids, rats, 843
Latin America
  obesity, women and children, 1464
LDL kinetics
  cholesterol-free diet, gerbils, 477
LDL receptor activity
  cholesterol-free diet, gerbils, 477
Learning ability
  structured triacylglycerols, brain neural function, rats, 1011
Lecithin: cholesterol acyltransferase
  secretion, fatty acids, rats, 1270
Leptin
  dietary obesity, rats, 1606
Leucine
  insulin regulations, of fetal amino acid metabolism, 342S
  metabolism, ethanol effects, liver protein secretion, humans, 198
  protein metabolism, in diabetes mellitus, 328S
^{15}N-Leucine
  amino acid endogenous loss, isotope dilution method, pigs, 1969
  infusion technique, amino acid levels, pigs, 1961
Life Sciences Research Office (LSRO) report
  appendix, nutrient requirements, term infant formulas, 2238S
  assessment of nutrient requirements for infant formulas, 2059S–2293S
  individuals and organizations participants, nutrient requirements, term infant formulas, 2232S

  nuclei, lipogenic enzyme, inflammation, vitamin A supplementation, rats, 967
Lower urinary tract disease
  dietary effects, cats, 2753S
Low weight-for-age
  children under 5, measurement scale, Mexico, 2363
Lung
  cancer, risk, alcoholic beverages, humans, 694
  irradiation, vitamin A supplementation, rats, 1661
  reduced glutathione levels, protein-energy malnourished rats, 671
Lutein
  absorption, marigold extract, mice, 1802
  mammary tumor development, mice, 1650
Lymph
  chylomicron, gastric digestion effects, butterfat absorption, rats, 2403
Lymphatic absorption
  prefed long-term high-fat diets, rats, 185
Lymphocytes
  activation, iron deficiency, mice, 1077
  arthritis, 1,25-dihydroxycholecalciferol effects, mice, 68
  diet and exercise immunity interaction, rats, 498
Lysine
  immunologic stress, amino acid utilization, chickens, 1760
  mitochondrial uptake effects, hepatic oxidation, casein protein diets, rats, 2427
  oxidation, protein synthesis, rats, 1503

M

Macronutrients
  prior day's food intake effects, humans, 61
Magnesium
  ionizable, requirements, high calcium intake, cats, 2601S
  LSRO report, nutrient requirements, term infant formulas, 2145S
  requirements, high calcium intake, cats, 2601S
Magnetic resonance imaging (MRI)
  dietary standards, nutrition and toxicology, 368S
Malnutrition
  fluoride and, rats, 1392
  food supplement impact, lactation, breast-milk intake, humans, 1692
  mild stunting, high fat diets effects, 415S
  mitochondria branched-chain aminotransferase, rats, 1368
  muscle glycolysis effects, rats, 1723
  prenatal, noradrenaline synthesis, brain disorders, rats, 1224
  protein
    deficiency, acute-phase response, rats, 166
    energy, plasma protein kinetics in, children, 214
    rehabilitation, hepatic histidase gene expression, 1631
    restriction adaptations, diabetes, 333S
  public health, natural disasters, North Korean children, 1315
  shigellosis, dietary supplementation impact, children, 1688
  vitamin A supplement, children, Zaire, 1320
Malodor
  periodontal therapy effects, halitosis, dogs, 2715S
Malonyl-CoA
  carnitine palmitoyltransferase I regulation, pigs, 886
Maltitol
  dietary, colon cancer and, rats, 536
  increases bone strength, rats, 2028
  tolerance, breath hydrogen excretion, humans, 587
Mammary gland
  metabolism, fatty acid effects, dairy cows, 1525
Manganese
  absorption, sodium iron EDTA, humans, 1139
  dietary standards, nutrition and toxicology, 368S
  LSRO report, nutrient requirements, term infant formulas, 2161S
  mineral effects, canine reproduction, health characteristics, 2603S
Maternal nutritional status
  lactational amenorrhea association, Demographic and Health Surveys use, 1672
Megestrol acetate
  zinc deficient rats, 136
Menaquinon
  vitamin K adequacy, dietary intake, 785
Menaquinone-4
  conversion of phylloquinone, rats, 220
Menkes disease
  Cu-ATPase, blood brain barrier cells, 1276
Metabolic compartmentation
  hepatic synthesis, dietary amino acids, pigs, 1517
Metabolic programming
  early nutrition, evolution, 400S
Metabolic rate
  thyroid hormone kinetics, iron-deficient rats, 1401
Metabolism
  amino acid
    interorgan soy and protein effects, pigs, 2435
    intestine mucosa, 1249
  diurnal variation, casein protein diets, rats, 2427
  zinc, preschool children requirements, 2369
Metallothionein
  induced expression, zinc deficiency, rats, 1092
  isotretinoin teratogenicity, zinc inhibition, mice, 1239
  knockout mice, intestinal zinc absorption, 825
  transgenic mice, intestinal zinc absorption, 825
  zinc induced, humans, 707
Methane
  oat extract consumption, expiration after, humans, 79
  producing status, lipids, humans, 1349
Methionine
  peptides as amino acid, sources for cultured cells, 251
Methylation
  homocysteine and, DNA, folate depletion, humans, 1204
5,10-Methylenetetrahydrofolate reductase
  folic acid supplementation, humans, 1336
Mexican Americans
  obesity, women and children, 1464
Mexico
  children under 5, low weight-for-age, measurement scale, 2363
Mice
  alcohol dehydrogenase, retinoic acid, embryogenesis, 459S
  arthritis, 1,25-dihydroxycholecalciferol effects, 68
  canthaxanthin supplementation, α- and γ-tocopherol status, 1989
  capsaicin analog, stearoyl vanillylamide, increased endurance, 1978
  carbohydrate intake, glucose metabolism partitioning, 733
  copper deficiency, immature neutrophils, 1855
  exercise performance, glutathione and glutathione ethyl ester supplementation, 2420
  green tea polyphenols, anti-inflammatory mechanism, 2334
  histidine availability, glucagon mRNA levels, 973
  immune function polysaccharide effects, 193
  increased protein kinase C activity, polyunsaturated fatty acids intake, 2505
  intestinal metallothionein, zinc absorption, 825
  iron deficiency, lymphocyte activation, 1077
  lutein effects
    mammary tumor development, 1650
    marigold extract, 1802
  nutrition, immunity, nematode infection, 20
  ob/ob, neuropeptide Y, corticotropin-releasing hormone effects, 2520
  streptozotocin-diabetic, antihyperglycemic effects, diet, 2319
  transgenic
    empty body components, 520
    glutathione peroxidase, antioxidative role, 1070
  in vivo, nucleic acid synthesis, 1562
  zinc inhibition, isotretinoin teratogenicity, 1239
Micronutrients
  McCollum International Lecture, research to global reality, 145
  supplementation, hepatobiliary disease, dogs and cats, 2733S
  zinc supplementation, improves growth, Guatemalan infants, 556
Microorganisms
  intestinal, microbial polyamine synthesis, rats, 1385
Microsomes
  dietary flavonoids, lipid peroxidation and, rats, 1495
Milk
  composition, milk yield, cats, 2618S
  dietary oils, conjugated linoleic acid concentrations, cows, 881
  insulin-dependent glucose utilization, veal calves, 1023
  intake, measurements, mink, 2620S
  mare's, composition, fatty acids, 2708S
  maternal caloric restriction, exercise effects, 386S
  products, urease activity, GI tract, rats, 1186
  yield
    composition, cats, 2618S
    mink, energy metabolism, water balance, 2615S
Minerals
  interaction, Nordic Nutrition Recommendations, toxicity considerations, 372S
  LSRO report, nutrient requirements, term infant formulas, 2140S
  zinc, copper, manganese, canine reproduction, health characteristics, canines, 2603S
Mink (*Mustela vison*)
  dogs, blue foxes, rats and, comparative nutrient digestibility, 2676S
  lactating, energy metabolism, water balance, 2615S
  milk intake, measurements, 2620S

plasma and creatinine levels, protein effects, 2584S
quantitative urine collection accuracy, experimental procedure, 2758S
Miscarriages
recurrent, methylenetetrahydrofolate reductase effects, folic acid supplementation, 1336
Mitochondria
lysine uptake effects, casein protein diets, rats, 2427
Mitochondrial aconitase
dietary iron affects iron regulatory proteins, rats, 525
Molybdenum
LSRO report, nutrient requirements, term infant formulas, 2181S
Monkeys
cynomolgus, LDL metabolism, cholesterol effects, 1104
grape juice, platelet aggregation inhibitor, dogs and, 2307
Monoamines
amino acid deficiency, regional neurochemistry, rats, 771
Monocytes
vitamin E, atherosclerosis development, 1593
zinc induced, human metallothionein expression, 707
Monosaccharides
LSRO report, nutrient requirements, term infant formulas, 2131S
Morbidity
adult disease, childhood weight, 411S
children under 5, low weight-for-age, measurement scale, Mexico, 2363
Morphology
intestinal, weanling diet, pigs, 947
Morphometrics
growth and, dietary protein, iguanas, 2587S
Mortality
Atlantic salmon, Cayuga syndrome, maternal blood, egg and larval thiamin levels, 2456
children under 5, low weight-for-age, measurement scale, Mexico, 2363
mRNA
cystein sulfinic acid decarboxylase decreased expression, dietary protein effects, rats, 1890
metallothionein expression, zinc deficiency, rats, 1092
quantitation techniques, experimental design, application, 2038
α-tocopherol transfer protein, vitamin E deficiency, rats, 2348
Mucosal degradation
probiotics, dietary antigen, rats, 2313
Muscle
glycolysis, malnutrition effects, rats, 1723
mass, sarcopenia, humans, 351S
plasma and, changes, creatine supplement effects, dogs, 2691S
Mushroom
straw diets, cholesterol metabolism, hamsters, 1512
Myogenic
peptide utilization, cultured animal cells, 744

N

NaFeEDTA
sodium iron, manganese excretion, humans, 1139
National Cholesterol Education Program II Diet (NCEP II)
postprandial triacylglycerol reduction, humans, 582
Native Americans
diabetes and obesity, food preparation and consumption, 541
Native Canadians
diabetes and obesity, food preparation and consumption, 541
Neonates
insulin, protein synthesis roles, 347S
Nepal
children, vitamin A deficiency, shared-plate eating, 1127
maternal night blindness, Vitamin A impact, 1458
Neural crest
vitamin A role, central nervous system development, 471S
Neural tube defects
curly tail mouse embryo, glucose effects, 1819
Neurodevelopment
dietary fatty acids, rats, 740
Neuropeptide Y
food intake stimulator, ob/ob mice response, 2520
zinc deficiency and, rats, 1218
Neutrophil
immature, copper deficiency, mice, 1855
Niacin
LSRO report, nutrient requirements, term infant formulas, 2190S
Night blindness
maternal, vitamin A impact, Nepal, 1458
Nitric oxide
dietary polyphenolic compounds, endothelium-dependent vasorelaxation, rats, 2324
synthase, protein malnutrition, placental development, polyamines, pigs, 2395
Nitrogen
amino acid digestibility and, cat food, 2801S
balance, *tropical crop seeds, quality, rats, 2014*
cycling, alanine and glutamine opposite fluxes, splanchnic area, rats, 1487
Noradrenaline synthesis
malnutrition, brain development, rats, 1224
Nordic Nutrition Recommendations
toxicity considerations, dietary standards, 372S
North Korea
natural disasters, public health, malnourished children, 1315
Nramp2
molecular genetics, iron transport, 1841
^{31}P-Nuclear magnetic resonance spectroscopy
glucose metabolism, effects of, fed vs. starved rats, 28
Nucleic acid
synthesis, in vivo, mice, 1562
Nucleotides
LSRO report, nutrient requirements, term infant formulas, 2122S
N utilization
chickpea protein, rats, 1042
Nutrient
LSRO report
minimum/maximum levels, infant formula, 2083S
requirements, term infant formulas, 2079S
recommendations, mineral standards, perspective, 375S
requirements, factorial calculation, 2609S
transport, plasma protein kinetics, malnutrition, children, 214
utilization, vitamin A determinant, rats, 1767
Nutrition
clinical, old and new substrates, 789
developmental regulations, fish, insulin-like growth factors, 306S
developments, during this century, horses, 2698S
diet, obesity, cats, 2776S
dietary fatty acids, neurodevelopment, rats, 740
enteral
ornithine α-ketoglutarate administration, burn injury, humans, 563
viscous polysaccharides effects, miniature pigs, 2446
environment, molecular methodologies, 2036
history, McCollum International Lecture, 145
infant, National Center for Health Statistics (NCHS), 1134
intake, hepatobiliary disease, dogs and cats, 2733S
multiparous species, developmental studies, 661
pharmacological, burn injury, 797
programs
biological and medical significance, 401S
Food Stamp and WIC evaluation, 548
protein
metabolism, hormones, 340S
restrictions, diabetes, 333S
recovery, insulin secretion effects, protein malnutrition, rats, 1643
requirements, exercise, dogs, 2686S
smoking and, unhealthy patterns, 1450

O

Oat fiber
  alimentary lipemia effects, rats, 1031
  extract, hydrogen/methane expiration after, humans, 79
Obesity
  adolescents, United States, 701
  cats, diet, 2776S
  childhood weight, adult disease, 411S
  dietary management advances, dogs and cats, 2771S
  feeding behavior comparison, owners, normal and obese dogs, 2779S
  high fat diet-induced, leptin, rats, 1606
  mild stunting, high fat diets effects, 415S
  Native Canadians, food preparation and consumption, 541
  overweight women and children, Latin America, 1464
Oil
  oxidized frying, dietary vitamin C raises tissue vitamin E, guinea pigs, 116
Oleic acid
  intestinal absorption, rats prefed high-fat diets, 185
Oligofructose
  induced, hypolipidemia effects, hormones, rats, 1099
  nondigestible, bifidogenic nature of chicory inulin (critical review), 11
Oligopeptide
  globin digest, clinical study of, humans, 56
Oligosaccharides
  LSRO report, nutrient requirements, term infant formulas, 2133S
Olive oil
  very low density lipoprotein composition, humans, 570
Organic matter
  fiber effects, energy, pet food, 2798S
Ornithine
  decarboxylase, early weaning, intestinal growth, rats, 1636
  α-ketoglutarate, administration in, burn injury, humans, 563
  nitric oxide synthase, protein malnutrition, placental development, polyamines, pigs, 2395
Orotic acid
  dietary amino acid patterns, crude protein levels, cats, 2577S
Osmotic pumps
  quantitative urine collection accuracy, mink, 2758S
Osteopenia
  dietary fructooligosaccharides, gastrectomy, rats, 485
Osteoporosis
  experimental, xylitol effects, ovariectomized rats, 1811
  salt intake, bone calcium content, rats, 633
Overweight
  humans, dietary fat lipid response, 1144
  women and children obesity, Latin America, 1464
Ovine
  skeletal muscle, peptides as amino acid sources for cultured cells, 251
Ovis aries
  β-defensin expression, sheep, 297S
Oxidation
  amino acid indicator, threonine requirements, total parental nutrition, pigs, 1752
  amino acid kinetics, stable isotopes, humans, 1913
  damage, vitamin C and vitamin E effects, guinea pigs, 116
  L-gulonolactone, vitamin C essential for *Astronotus ocellatus*, 1745
  stress, bioactive lipids, human disease, 434S
  substrate, energy metabolism, water balance, mink, 2615S
  in vitro, low density lipoproteins, dietary fat, humans, 1703
β-Oxidation
  peroxisomal activity, catalase, pigs, 1114

P

Pantothenic acid
  LSRO report, nutrient requirements, term infant formulas, 2196S
Paraquat
  glutathione peroxidase, antioxidative role, mice, 1070
Parasitic infection
  nematode, zinc deficiency, immune effects of, vs. energy restriction, mice, 20
Parental nutrition
  threonine requirements, pigs, 1752
Pectin
  gender, dietary fiber, lipoprotein metabolism, guinea pigs, 1434
  viscosity, cholesterol metabolism, hamsters, 1944
Penaeus monodon
  grass shrimp, chitin and chitosan effects, 908
  shrimp growth, biotin dietary requirement, 2494
Peptides
  as amino acid sources, for cultured cells, 251
  utilization, cultured animal cells, 744
Periodontal disease
  diet, domestic pets, 2712S
  halitosis, dogs, 2715S
Permeability
  intestinal epithelia, hot spices effects, humans, 577
Peroxidase
  glutathione
    antioxidant effects, dilated cardiomyopathy, dogs, 2768S
    liver selenium, growth, rats, 1289
  phospholipid hydroperoxide glutathione, liver selenium, growth, rats, 1289
Peroxidation
  high altitude, biological and nutritional effects, rescue dogs, 2694S
Peroxisomes
  β-oxidation activity, catalase, pigs, 1114
  proliferator effects, polyunsaturated fatty acids, gene expression, 923
Peroxynitrite
  oxidation of α-tocopherol, rat brain subcellular fractions, 152
Persimmon
  lipid metabolism effects, cholesterol diets, rats, 2023
pH, intramuscular
  glucose metabolism, effects of, fed vs. starved, rats, 28
Pharmacokinetics
  soybean isoflavones, humans, 1710
Phospholipids
  diet and exercise immunity interaction, rats, 498
  dietary flaxseed effects, fatty acid transport and metabolism, dogs, 2641S
  persimmon, lipid metabolism effects, rats, 2023
Phosphorus
  deficiency, investigations, cats, 2598S
  LSRO report, nutrient requirements, term infant formulas, 2143S
Phylloquinone
  conversion, to menaquinone-4, rats, 220
  vitamin K adequacy, dietary intake, 785
Phytates
  acid effects, mineral utilization, rats, 1192
  nonheme iron absorption improvement, humans, 646
Phytic acid
  effects, free radicals, rats, 1950
Phytoestrogens
  isoflavonoids, serum lipids, humans, 728
  pharmacokinetics, soybean isoflavones, humans, 1710
  soy protein and isoflavones, cardiovascular disease risk, 1589
Pigs
  amino acids, fetal fluids, 894
  arachidonic and docosahexaenoic acids, growth, 1376
  atrophy, oral milk feeding, 2727S
  body composition, estimation, 1543
  carnitine palmitoyltransferase I activity, skeletal muscle mitochondria, 886
  gene obese expression, food deprivation, 677
  hepatic synthesis, dietary amino acids, 1517
  IGF-binding, nutrition, growth, reproduction, 315S

intestinal lipids, in malnutrition, 224
intestinal metabolism, dietary amino acids, 606
intravenous glutamine vs. enteral feedings, small intestinal atrophy, 2723S
miniature
enteral diets, nutrient absorption, 2446
red blood cell membranes, (n-3)/(n-6) fatty acids, 1421
^{15}N amino acid, dilution method, 1969
neonatal
brain development, dietary cholesterol, 2498
intestinal development, diet, 1302
^{15}N-leucine infusion technique, amino acid levels, pigs, 1961
peroxisomal β-oxidation activity, catalase, 1114
placental development, nitric oxide synthase, protein malnutrition, polyamines, 2395
selenoperoxidases, expression of, 130
soy and casein protein effects, interorgan amino acid metabolism, 2435
soybean trypsin inhibitors, endogenous amino acids, 598
swine dysentery, nutritional effects, 1737
total parental nutrition, threonine requirements, 1752
vitamin E supplementation, interleukin-6 effects, 1657
weanling diet, intestinal function, 947
Plants
traditional treatments, antihyperglycemic effects, diet, mice, 2319
Plaque
tooth brushing, periodontal disease, domestic pets, 2712S
Plasma
muscle and, changes, creatine supplement effects, dogs, 2691S
taurine measurements, low magnesium intake, high calcium diet, cats, 2581S
Platelets
(n-6) and (n-3) fatty acid effects, cats, 2645S
taurine measurements, low magnesium intake, high calcium diet, cats, 2581S
vitamin E, atherosclerosis development, 1593
Polyamine
formation, microbial, rats, 1385
Polycose
low calcium diet, sweet substance reduction, rats, 1232
Polyol
maltitol tolerance, breath hydrogen excretion, humans, 587
Polyphenols
dietary plant compounds, endothelium-dependent vasorelaxation, rats, 2324
green tea, anti-inflammatory mechanism, mice, 2334
wine, plasma antioxidant capacity, humans, 1003
Polysaccharides
complex, zinc bioavailability comparison, physiologic measurements, dogs, 2809S
LSRO report, nutrient requirements, term infant formulas, 2137S
swine dysentery, nutritional effects, pigs, 1737
Postaglandin E_1
dietary γ-linolenic acid importance, humans, 1411
Postpartum
maternal night blindness, vitamin A impact, Nepal, 1458
Postprandial
lipemia, dietary fiber effects, rats, 1031
plasma carotenoid effects, fruit, vegetables, red wine consumption, humans, 2391
response, plasma and creatinine levels, mink, 2584S
triacylglycerol reduction, NCEPP II diet, humans, 582
Potassium
dietary protein, bone loss, humans, 1051
LSRO report, nutrient requirements, term infant formulas, 2171S
Potato starch
modified effects, rats, 848
Potential renal solute load (PRSL)
LSRO report, nutrient requirements, term infant formulas, 2129S
Prebiotic
chicory inulin bifidogenic nature of (critical review), 11
Pregnancy
amino acids fetal fluids, pigs, 894
folate catabolism during, humans, 204
insulin-like growth factors, chromium and diabetes interaction, diabetes, rats, 2341
maternal night blindness, vitamin A impact, Nepal, 1458
polyunsaturated fatty acids intake, increased protein kinase C activity, mice, 2505
Premenopausal
α-tocopherol concentrations, menstrual cycle fluctuation, women, 1150
Preschoolers
fortified foods, Guatemalan toddlers diet, 860
Preterm infants
nutritional status, food cooked in iron pots, 855
Probiotics
mucosal degradation effect, dietary antigen, rats, 2313
Proglucagon
ileal gene expression, fermentable fiber effects, glucose homeostasis improvement, dogs, 1786
Protein-bound polysaccharide
immune function in young and old mice, 193
Protein-energy malnutrition
children, plasma nutrient transport proteins, 214
intestinal lipids, fatty acid profile, pigs, 224
Protein kinase C
increased activity, polyunsaturated fatty acids intake, mice, 2505
Proteins
accretion, ovine skeletal muscle, peptides as amino acid sources for cultured cells, 251
acute phase, ascorbic acid deficiency, rats, 832
calcium binding, dietary fructooligosaccharides, rats, 934
cAMP-dependent, rats, 927
chicken accretion, amino acid utilization, 1760
chickpea globulin, protein, rats, 1042
cholesterol metabolism, dietary pectin, hamsters, 1944
C-reactive, vitamin A supplementation, humans, rats, 1681
crude, dietary amino acid patterns, cats, 2577S
deficiency, vitamin E status, α-tocopherol transfer protein, rats, 2348
dietary
bone loss, 1048
humans, 1051, 1054
bone metabolism, 2529
brain protein synthesis, aged rats, 1533
growth and morphometrics, iguanas, 2587S
histidase expression, rats, 818
intestinal metabolism of dietary amino acids, pigs, 606
vitamin B-6 deficiency, tyrosine aminotransferase, cats, 1995
egg, human digestibility, 1716
energy malnutrition, lung injury, glutathione protection, rats, 671
hepatic synthesis, dietary amino acids, pigs, 1517
high, plasma and creatinine levels, mink, 2584S
IGF-binding, nutrition, growth, reproduction, pigs, 315S
iron regulatory, dietary iron intake effects, rats, 525
low, plasma and creatinine levels, mink, 2584S
LSRO report, nutrient requirements, term infant formulas, 2110S
malnutrition
fetal fluids, amino acids, pigs, 894
placental development, nitric oxide, polyamines, pigs, 2395
metabolism
amino acid deposition, preruminant calves, 1774
amino acid requirements, AIDS patients, 1342
in insulin-dependent diabetes mellitus, 323S
restrictions, nutritional effects, 337S
mitochondria branched-chain aminotransferase, rats, 1368
novel, large intestinal disease, dogs and cats, 2717S
rehabilitation, hepatic histidase gene expression, rats, 1631
requirements, maintenance, maximum weight gain, in red drum, 123

resistant, fatty acids, cecal starch fermentation, rats, 1156
restrictions, diabetes mellitus, 321S
retinol-binding, inflammation, vitamin A supplementation, rats, 960
soy
cholesterol-lowering effects, AHA Step I diet, 1429
highly purified, rats, 1084
isoflavones and, cardiovascular disease risk, 1589
serum lipids, gerbils, 839
synthesis
dietary protein effects and, aged rats brain, 1533
fibrinogen, fasted cancer patients, 1355
hepatic, moderate/large doses of ethanol and, humans, 198
hormone sensitivity, 356S
insulin roles
neonates, 347S
sarcopenia, humans, 351S
lysine catabolism, rats, 1503
mucosal, intestinal metabolism, dietary amino acids, pigs, 606
in vivo, mice, 1562
tropical crop seeds, quality, rats, 2014
Prothrombin
vitamin K adequacy, dietary intake, 785
Pruritus
dermatologic signs and, food sensitivity, cats, 2790S
Psammomys obesus
Israeli sand rats, lipogenesis effects, 1984
Psyllium
dietary, alters bile acid metabolism, rats, 1199
gender, dietary fiber, lipoprotein metabolism, guinea pigs, 1434
Pyridoxal phosphate
vitamin B-6 deficiency, tyrosine aminotransferase activity, cats, 1995
Pyruvate dehydrogenase complex
thiamine-dependent gene regulation, humans, 683, erratum, 1247
Pyruvate kinase
hepatic, zinc deficiency, rats, 43, erratum, 921

Q

Quercetin supplementation
heart disease risk factors, humans, 593

R

Ractopamine
insulin sensitivity, cattle, 505
Radiation pneumonitis
determinant, vitamin A supplementation, rats, 1661
Rainbow trout
embryo, boron stimulated growth, 2488
Rate of passage
exercise effects, digestibility, diet, horses, 2704S
Rats
alimentary lipemia, dietary fiber effects, 1031
amino acid deficiency, regional neurochemistry, 771
ammonia infusion, short-chain fatty acids, 843
antisense oligonucleotide, brain GLUT2, food intake and, 287
bone calcium content, salt intake, 633
brain
development, fatty acid composition, 2467
lesions, imbalanced amino acid diet, 1213
protein synthesis, dietary protein effects and, 1533
calcium
absorption, fructooligosaccharide feeding, 1815
binding proteins, dietary fructooligosaccharides, 934
cAMP-dependent protein kinase, malnutrition, 927
β-carotene, cellular retinol-binding protein II regulation, 1614
casein protein diets, mitochondrial lysine uptake effects, hepatic lysine oxidation, 2427
cat food, nitrogen, amino acid digestibility, 2801S
cell proliferation, after dietary iron supplementation, 175
chickpea proteins, nutritional utilization, 1042
chicory, lipid metabolism, 1731
chromium and diabetes interaction, diabetes, insulin-like growth factors, 2341
chronic ethanol consumption, glutathione status, 758
cysteine
metabolism, during sepsis, 97
sulfinate, mRNA decreased expression, dietary protein effects, 1890
diet and exercise immunity interactions, fatty acids, 498
dietary fat
digestibility, 875
IGF receptor expression, 158
dietary fiber, colonocyte metabolism, tumorigenesis, 1262
dietary fish oil effects, monoaminergic neurotransmission, behavior, 2512
dietary flavonoids, lipid peroxidation and, 1495
dietary fructooligosaccharides, prevent postgastrectomy anemia and osteopenia, 485
dietary maltitol and, colon cancer, 536
dietary (n-3) fatty acids, rapid effects, 512
dietary psyllium, alters bile acid metabolism, 1199
dimethylhydrazine-treated, chickpea and wheat vs. casein and wheat, colon cancer, 804
docosahexaenoic acid increase, hormone concentration, 1257
dogs, blue foxes, mink and, comparative nutrient digestibility, 2676S
dual-energy X-ray absorptiometry, body composition assessment, 1550
endothelium-dependent vasorelaxation, dietary polyphenolic compounds, 2324
(−)-epicatechin metabolism accumulation, conjugation enzymes distribution, 1172
ex vivo muscle pH, nutritional state of, 28
female, energy restriction, bone density and turnover, 640
fish oil increases colonocyte differentiation, apoptosis, 491
germ-free, microbial polyamine synthesis, 1385
glutamine, heat shock reduction, intestinal epithelial cells, 1269
gnotobiotic, conversion of phylloquinone to menaquinone-4, 220
hepatic histidase gene expression, protein rehabilitation, 1631
histidase expression, dietary protein, 818
inflammation, vitamin A supplementation, 960
insulin secretion and action, protein malnutrition, 1643
intestinal lymphatic absorption, after high-fat diets, 185
iron-deficient, thyroid hormone kinetics, 1401
iron supplementation, aberrant crypt foci development, 764
lactation, branched-chain amino acid metabolism, 1165
lactose-induced diarrhea, vitamins A and E effects, 2467
lecithin cholesterol acyltransferase secretion, fatty acids, 1270
leptin, dietary obesity, 1606
lignan
effects, reproduction, 1861
metabolites, disposition of, 615
α-linolenic acid deficiency, behavior during aging, 1537
lipid
digestion, absorption, 2001
metabolism, fructooligosaccharides, 1283
metabolism effects, persimmon, 2023
lipogenic enzyme
inflammation, vitamin A supplementation, 967
starch diet effects, 1878
liver
dietary iron affects iron regulatory proteins, 525
selenium, glutathione peroxidase, growth, 1289
long-term fructose consumption, glycation reaction, aging, 1442
low calcium diet, sweet substance reduction, 1232
lymph chylomicron, gastric digestion effects, butterfat absorption, 2403
male Fischer 344, adrenocortical responsiveness to ACTH, 1415
malnutrition effects, muscle glycolysis, 1723

maltitol, increases bone strength, 2028
meal-fed, exercise training down-regulates lipogenic enzymes, 810
microbial polyamine synthesis, intestinal, 1385
mitochondria branched-chain aminotransferase, dietary protein level, 1368
modified potato starch effects, increased fecal bile acid excretion, 848
neonatal, increased ornithine decarboxylase, early weaning, 1636
neurodevelopment, dietary fatty acids, 740
noradrenaline, malnutrition, brain development, 1224
ODS, ascorbic acid deficiency, acute phase proteins, 832
oligofructose-induced hypolipidemia effects, hormones, 1099
orally fed digalactosyldiacylglycerol, 239
ovariectomized, xylitol effects, bone biomechanical properties, 1811
phenotypic consequences, leptin receptor gene, obesity, 2299
phytate acid effects, mineral utilization, 1192
phytic acid effects, free radicals, 1950
placental copper transport, high zinc diet, 1037
plasma cholesterol reduction, cecal fermentation, 688
postgastrectomy osteopenia, dietary fructooligosaccharides effects, 106
probiotics, mucosal degradation, dietary antigen, 2313
protein-deficient diet, acute-phase response, 166
protein-energy malnourished, lung injury, glutathione protection, 671
protein synthesis
  hormone sensitivity, 356S
  lysine catabolism, 1503
retinoid receptors, embryogenesis vertebrate, 467S
retinol-binding protein, vitamin A supplementation, humans, 1681
small intestine, vitamin A effects, bone-type alkaline phosphatase, 1869
soybean protein effects, cholesterol metabolism, fatty acid desaturation, 1084
spontaneously hypertensive, antioxidant status, diet-induced changes, 1620
starch structure, insulin action, 35
starved, adipocyte lipoprotein lipase activity, 940
structured triacylglycerols, brain neural function, 1011
sucrose, decreased bone strength, 1807
α-tocopherol
  oxidation by peroxynitrite, rat brain, 152
  transfer protein, vitamin E status, rats, 2348
tropical crop seeds, protein quality, 2014
urease activity, GI tract, 1186
vitamin A
  supplementation, radiation-induced determinant, 1661
  utilization, plasma retinol determinant, 1767
vitamin B-6, amino acids, 1829
wheats differing in energy, nutritional effects of, 234
whole body composition, predicted by dual energy X-ray absorptiometry, 246
zinc deficiency, 43, erratum, 921
  IGF-1 and, food intake in, 136
  metallothionein expression, 1092
  neuropeptide Y, 1218
Receptors
  lipoproteins role, in fat transport, 439S
Recommended Dietary Allowances
  essential minerals, exposure limits, 364S
Red blood cell
  fatty acid composition, brain development, rats, 2473
Reference dose (RfD)
  setting exposure limits, dietary allowances, 364S
Renal disease
  canine, polyunsaturated fatty acid supplementation role, 2765S
Reproduction
  copper requirements, cats, 2590S
  development, lignans effects, rats, 1861
  mineral effects, health characteristics, canines, 2603S
Retina
  aldehyde dehydrogenases, eye development role, 463S
  structured triacylglycerols, brain neural function, rats, 1011
Retinaldehyde
  aldehyde dehydrogenases, eye development role, 463S
Retinoic acid
  aldehyde dehydrogenases, eye development role, 463S
  vertebrate embryogenesis, rats, 467S
  vitamin A
    alcohol dehydrogenase, mice, 459S
    polymeric immunoglobulin receptor (pIgR) expression, humans, 1063
Retinoids
  receptors
    vertebrate embryogenesis, rats, 467S
    vitamin A effects, rats, 1869
  vitamin A role, central nervous system development, 471S
Retinyl palmitate
  β-carotene bioavailability, triglyceride impairment, humans, 1361
Rhodopsin
  aldehyde dehydrogenases, eye development role, 463S
Rhombomeres
  vitamin A role, central nervous system development, 471S
Riboflavin
  LSRO report, nutrient requirements, term infant formulas, 2189S
Rice bran
  hyperlipidemia and, humans, 865
R/Q353 polymorphism
  factor VII, dietary effects, elderly, 870
Rumen
  isolated epithelial metabolism, uses, 293S

S

Satellite cells
  ovine skeletal muscle, peptides as amino acid sources, 251
Satiation
  cellulose effects, diet composition, digestibility, dogs, 2674S
  jojoba seeds effects, dogs, 2669S
Scoring patterns
  amino acids metabolic demands, human dietary requirement, 2563S
Secoisolariciresinol
  diglycoside, lignans effects, reproduction, rats, 1861
  lignan metabolites, disposition of, rats, 615
Secretion
  lecithin cholesterol acyltransferase, fatty acids, rats, 1270
Selenium
  biochemistry, cancer prevention, basic research progress, 1845
  deficiency, phospholipid hydroperoxide glutathione peroxidase, rats, 1289
  dietary, selenoperoxidases, expression of, pigs, 130
  glutathione peroxidase, antioxidative role, mice, 1070
  LSRO report, nutrient requirements, term infant formulas, 2173S
  repletion, phospholipid hydroperoxide glutathione peroxidase, rats, 1289
Serine
  urea nitrogen utilization, methionine supplementation, women, 720
Serotonin$_3$ receptors
  brain lesions, imbalanced amino acid diet, rats, 1213
Serpulina hyodysenteriae
  swine dysentery, nutritional effects, pigs, 1737
Serum
  β-carotene, humans, 903
  peptide utilization, cultured animal cells, 744
  replacement, peptide utilization, cultured animal cells, 744
Sesamolin
  inhibits lipid peroxidation, rats, 1018
Shigellosis
  dietary supplementation impact, catch-up growth, children, 1688
Shrimp
  grass, chitin and chitosan effects, 908
  growth, biotin dietary requirement, 2494
Simulation Analysis and Modeling (SAAM)
  thyroid hormone kinetics, iron-deficient rats, 1401

Skeletal muscle
carnitine palmitoyltransferase I, pigs, 886
protein restrictions, nutritional effects, 337S
Skin
disease, diet, dogs and cats, 2783S
lesions, possible food allergy, cats, 2792S
serum and, β-carotene, humans, 903
Small intestine
lipids, protein-energy malnutrition, rats, 224
Smoking
nutrition and, unhealthy patterns, 1450
Smooth muscle cell
vitamin E, atherosclerosis development, 1593
Sodium
LSRO report, nutrient requirements, term infant formulas, 2169S
Somatotropin
lysine oxidation, protein synthesis, rats, 1503
Soy
casein protein effects and, interorgan amino acid metabolism, pigs, 2435
products, intake, serum cholesterol levels and, humans, 209
protein isolate, casein comparison, mice, 1884
Soybean
flour, lipid digestion, absorption, rats, 2001
isoflavones and, cardiovascular disease risk, 1589
trypsin inhibitors, amino acids, pigs, 598
Special Supplemental Nutrition Program for Women, Infants, and Children (WIC)
household participation, increased nutrient intake, children, 548
Species
multiparous, developmental nutritional studies, 661
Spectroscopy
reflection, β-carotene, humans, 903
Spices
hot, effects on intestinal epithelial, humans, 577
Spleen
iron deficiency, lymphocyte activation, mice, 1077
lutein absorption, marigold extract, mice, 1802
Stable isotopes
acetate metabolism, kinetic study, dogs, 2651S
amino acid
kinetics, oxidation, humans, 1913
metabolic demands, human dietary requirement, 2563S
egg protein digestibility, humans, 1716
endogenous acetate metabolism, dogs, 111
folate
intake requirements, nonpregnant women, 1896
nutritional status, isotopic excretion, humans, 1907
intestinal metabolism, dietary amino acids, pigs, 606
lactulose ingestion effects, plasma acetate, dogs, 2663S
Starch
potentially available, in vitro prediction method, humans, 651
resistant
bean digestion, humans, 977
content, in vitro prediction method, humans, 651
digestibility, dogs, 2032
phytate acid effects, mineral utilization, rats, 1192
swine dysentery, nutritional effects, pigs, 1737
Stearic acid
dietary fats, digestibility, rats, 875
Stearoyl vanillylamide
capsaicin analog, increased endurance, mice, 1978
Steroid metabolism
wheat differences in, energy metabolism, nutritional effects, rats, 234
Stress
oxidation, sesamolin inhibits lipid peroxidation, rats, 1018
Striatum
dietary fish oil effects, rats, 2512
Stunting
mild, high fat diets effects, 415S
shigellosis, dietary supplementation impact, children, 1688
Substrates
clinical nutrition, requirements, 789
Succinate
cecal fermentation, fatty acids, resistant proteins, rats, 1156
Sucrose
decreased bone strength, rats, 1807
fatty acids, lipid metabolism, rats, 1283
LSRO report, nutrient requirements, term infant formulas, 2137S
Sugars
long-term consumption, glycation reaction, aging, rats, 1442
Sulfate
cysteine metabolism, during sepsis, rats, 97
Sulfur
urea nitrogen utilization, methionine supplementation, women, 720
Sunflower oil
high oleic, very low density lipoprotein composition, humans, 570
Superoxide dismutase
manganese-dependent, dietary standards, 368S
Supplements
use, demographic, lifestyle, diet, health, humans, 2355
Swimming capacity
capsaicin analog, increased endurance, mice, 1978
Swine dysentery
nutritional effects, pigs, 1737

T

D-Tagatose
respiratory gas exchange, humans, 1481
Tannins
dietary polyphenolic compounds, endothelium-dependent vasorelaxation, rats, 2324
Taurine
cysteine metabolism, during sepsis, rats, 97
cysteine sulfinate, mRNA decreased expression, dietary protein effects, rats, 1890
low magnesium intake, high calcium diet, cats, 2581S
LSRO report, nutrient requirements, term infant formulas, 2121S
status, cysteinsulfinic acid, cats, 751
Thiaminase
Atlantic salmon, maternal blood, egg and larval thiamin levels, 2456
Thiamine
dependent, gene regulation, humans, 683, erratum, 1247
LSRO report, nutrient requirements, term infant formulas, 2188S
Thiobarbituric acid
chronic ethanol consumption, glutathione status, rats, 758
Threonine
immunologic stress, amino acid utilization, chickens, 1760
requirements, total parental nutrition, pigs, 1752
Thrombogenic factors
quercetin supplementation, heart disease risk factors, humans, 593
Thrombosis
platelet aggregation inhibitor, grape juice, monkeys, dogs, 2307
Thyroid
hormone levels, colony average, cats, 2636S
Tissue
distribution
canthaxanthin supplementation, mice, 1989
inflammation, vitamin A supplementation, rats, 960
Tobacco
nutrition and smoking, unhealthy patterns, 1450
Tocopherol
LDL in vitro oxidation, dietary fat, humans, 1703
α-Tocopherol
canthaxanthin supplementation, mice, 1989
concentrations, menstrual cycle fluctuation, humans, 1144
oxidation, by peroxynitrite, rat brain, 152

transfer protein, vitamin E deficiency, protein insufficiency, rats, 2348
vitamin E absorption, zinc deficiency and, rats, 265
γ-Tocopherol
canthaxanthin supplementation, mice, 1989
Total body element content
in vivo neutron activation analysis, humans, 1008
Toxicity
nutrition and, dietary standards, 368S
Trace elements
mammalian zinc transporters, nutritional advances, 667
Nordic Nutrition Recommendations, toxicity considerations, dietary standards, 372S
Tracer kinetics
insulin regulations, of fetal amino acid metabolism, 342S
Transcellular transport
active, calcium absorption paradigm for mineral absorption, 917
Transepithelial electrical resistance
hot spices effects, intestinal epithelia, humans, 577
Transepithelial transport
passive, calcium absorption paradigm for mineral absorption, 917
Transferrin receptor
iron regulatory proteins, responsive elements, homeostasis, 2295
Transketolase
thiamine-dependent gene regulation, humans, 683, erratum, 1247
Transporters
copper
ATPase, Menkes disease, 1276
zinc effects, Caco-2 cells, 1794
glucose
basolateral, dogs, 1786
brush border membrane sodium-dependent, dogs, 1786
lysine, casein protein diets, rats, 2427
mammalian zinc, nutritional advances, 667
membrane, molecular genetics, 1841
nutrient, neonatal intestinal development, pigs, 1302
vitamin A, polymeric immunoglobulin receptor (pIgR) expression, humans, 1063
Triacylglycerol
lymph chylomicron, gastric digestion effects, rats, 2403
NCEPP II diet, postprandial, humans, 582
Triacylglycerols
very low density lipoprotein composition, humans, 570
Triglycerides
conjugated linoleic acid effects, de novo fatty acid inhibitor, cows, 2411
oligofructose-induced hypolipidemia effects, hormones, rats, 1099
Tropical crop seeds
protein quality, rats, 2014
Trypsin
inhibitors, endogenous amino acids, 2526
Tumor necrosis factor
adipose tissue, lean and obese cats, 2751S
green tea polyphenols, anti-inflammatory mechanism, mice, 2334
Tumors
mammary development, lutein effects, mice, 1650
Turkeys
insulin-like growth factors, nutritional and developmental roles, 302S
Turnover rate
endogenous acetate metabolism, dogs, 111
Tyrosine aminotransferase
vitamin B-6 deficiency, pyridoxal phosphate, cats, 1995

U

Urea
LSRO report, nutrient requirements, term infant formulas, 2125S
protein restriction adaptations, diabetes, 333S
Urease
activity, GI tract, rats, 1186
Urinary markers
quantitative urine collection accuracy, mink, 2758S
Urinary retinol excretion
inflammation, vitamin A supplementation, rats, 960
Urine
excretion, manganese absorption, sodium iron EDTA, humans, 1139
pH
acidification, commercial dry cat food diet comparison, 2763S
health monitoring system, dogs, 2761S
lower urinary tract disease, dietary effects, cats, 2753S
saturation
health monitoring system, dogs, 2763S
lower urinary tract disease, dietary effects, cats, 2753S
supersaturation, acidification, commercial dry cat food diet comparison, 2763S
volume, lower urinary tract disease, dietary effects, cats, 2753S

V

Vasorelaxation
endothelium-dependent, dietary polyphenolic compounds, rats, 2324
Vegetables
β-carotene bioavailability, humans, 913
human consumption, serum antioxidant capacity, 2383
postpranidal plasma carotenoid effects, fruit, red wine consumption, humans, 2391
Very low density lipoprotein (VLDL)
triacylglycerols composition, humans, 570
Viscosity
enteral diets, nutrient absorption, miniature pigs, 2446
soluble-fiber supplementation, lipids, humans, 1927
Vitamin A
absorption, lactose-induced diarrhea, rats, 2467
alcohol dehydrogenase, retinoic acid synthesis, mice, 459S
bone-type alkaline phosphatase expression, small intestine, rats, 1869
β-carotene conversion, ferrets, 271
deficiency
β-carotene, gerbils, 280, 1179
embryonic development, 455S
history, McCollum International Lecture, 145
malnourished children, Zaire, 1320
shared-plate eating, Nepali children, 1127
fortified foods, Guatemalan toddlers diet, 860
impact, maternal night blindness, Nepal, 1458
LSRO report, nutrient requirements, term infant formulas, 2182S
metabolism, embryonic development, 453S
nonheme iron absorption improvement, β-carotene, humans, 646
polymeric immunoglobulin receptor (pIgR) expression, humans, 1063
radiation-induced pneumonitis determinant, rats, 1661
supplementation
malnourished children, Zaire, 1320
retinol-binding protein, humans, rats, 1681
utilization, plasma retinol determinant, rats, 1767
value, β-Carotene, gerbils, 1179
Vitamin B-6
amino acids and, rats, 1829
deficiency, tyrosine aminotransferase, pyridoxal phosphate, cats, 1995
LSRO report, nutrient requirements, term infant formulas, 2191S
Vitamin B-12
folate status and, young women, 1665
LSRO report, nutrient requirements, term infant formulas, 2193S
Vitamin C
LSRO report, nutrient requirements, term infant formulas, 2198S
supplementation, in guinea pigs fed oxidized frying oil, 116
Vitamin D
arthritis inhibition, 1,25-dihydroxycholecalciferol, mice, 68
LSRO report, nutrient requirements, term infant formulas, 2183S

Vitamin deficiency
Atlantic salmon, Cayuga syndrome, maternal blood, egg and larval thiamin levels, 2456
Vitamin E
absorption, lactose-induced diarrhea, rats, 2467
biological and nutritional effects, rescue dogs, 2694S
biological functions, atherosclerosis development, 1593
deficiency, α-tocopherol transfer protein, rats, 2348
interleukin-6 effects, pigs, 1657
LSRO report, nutrient requirements, term infant formulas, 2107S, 2184S
oxidation of α-tocopherol by peroxynitrite, brain, 152
phytic acid effects, free radicals, rats, 1950
supplement use, demographic, lifestyle, diet, health, humans, 2355
α-tocopherol concentrations, premenopausal women, 1150
vitamin C supplementation and, in guinea pigs fed oxidized frying oil, 116
Vitamin K
conversion of phylloquinone to menaquinone-4, rats, 220
LSRO report, nutrient requirements, term infant formulas, 2186S
nutrition, dietary intake, 785
Vitamins
skin disease, diet, dogs and cats, 2783S
Volvariella volvacea
straw mushroom diets, cholesterol metabolism, hamsters, 1512
Vomiting
dermatologic signs and, food sensitivity, cats, 2790S

W

Water
balance, energy metabolism, mink, 2615S
tritiated, milk intake measurements, mink, 2620S
turnover, milk intake measurements, mink, 2620S
Weaning
diet, intestinal function, pigs, 947
early, increased ornithine decarboxylase, intestinal growth, rats, 1636
Weight
Barbados feeding practices, infant growth, 1328
reduction, diet assessment systems evaluation, 986
underwater, body composition estimation, pigs, 1543
Wheat
diet, colon cancer, rats, 804
flour, nutritional effects, metabolic energy, rats, 234
White blood cell
taurine measurements, low magnesium intake, high calcium diet, cats, 2581S
Wine
red
alcohol-free, polyphenols, plasma antioxidant capacity, humans, 1003
human consumption, serum antioxidant capacity, 2383
postpranidal plasma carotenoid effects, humans, 2391
Women
young, folate and vitamin B-12 status, nutrient intake, 1665

X

Xanthomatosis
lipoproteins role, in fat transport, 439S
X-ray absorptiometry
dual energy, body composition estimation, pigs, 1543
dual-energy, rat body composition assessment, 1550
Xylitol
bone biomechanical effects, ovariectomized rats, 1811

Z

Zaire
malnourished preschool children, vitamin A supplement, 1320
Zebra finch *(Poephila guttata)*
passerine species, comparative nutrition, 2684S
Zinc
absorption, intestinal metallothionein, mice, 825
bioavailability
comparison, physiologic measurements, dogs, 2809S
organic vs. inorganic, dogs, 2593S
Caco-2 cells, copper kinetics effects, 1794
deficiency
IGF-1 and, food intake, rats, 136
immune effects, energy restriction, mice, 20
macronutrient effects, rats, 43, erratum, 921
metallothionein expression, rats, 1092
neuropeptide Y and, rats, 1218
α-tocopherol, intestinal absorption, rats, 265
IGF-I stimulation and, DNA synthesis, 1600
induced, human metallothionein expression, 707
inhibition, isotretinoin teratogenesis, mice, 1239
LSRO report, nutrient requirements, term infant formulas, 2157S
mammalian transporters, nutritional advances, 667
metabolism, preschool children requirements, 2369
mineral effects, canine reproduction, health characteristics, 2603S
organic, bioavailability, dogs, 2593S
oxide, bioavailability, dogs, 2596S
propionate, bioavailability, dogs, 2596S
supplementation, improves growth, Guatemalan infants, 556
transporter-1 expression, mice, 825
